**The Concept of Creativity in Science and Art** Feb 27 2021

This third volume of American University Publications in Philosophy continues the tradition of presenting books in the series shaping current frontiers and new directions in philosophical reflection. In a period emerging from the neglect of creativity by positivism, Professors Dutton and Krausz and their eminent colleagues included in the collection challenge modern philosophy to explore the concept of creativity in both scientific inquiry and artistic production. In view of the fact that Professor Krausz served at one time as Visiting Professor of Philosophy at The American University we are especially pleased to include this volume in the series. HAROLD A. DURFEE, for the editors of American University Publications in Philosophy EDITORS' PREFACE While the literature on the psychology of creativity is substantial, surprisingly little attention has been paid to the subject by philosophers in recent years. This fact is no doubt owed in part to the legacy of positivism, whose tenets have included a sharp distinction between what Hans Reichenbach called the context of discovery and the context of justification. Philosophy in this view must address itself to the logic of justifying hypotheses; little of philosophical importance can be said about the more creative business of discovering them. That,

positivism has held, is no more than a merely psychological question: since there is no logic of discovery or creation, there can be no philosophical reconstruction of it.

The Wounded Storyteller Mar 19 2020 Since it was first published in 1995, *The Wounded Storyteller* has occupied a unique place in the body of work on illness. Both the collective portrait of a so-called “remission society” of those who suffer from some type of illness or disability and a cogent analysis of their stories within a larger framework of narrative theory, Arthur W. Frank’s book has reached a large and diverse readership including the ill, medical professionals, and scholars of literary theory. Drawing on the work of authors such as Oliver Sacks, Anatole Broyard, Norman Cousins, and Audre Lorde, as well as from people he met during the years he spent among different illness groups, Frank recounts a stirring collection of illness stories, ranging from the well-known—Gilda Radner's battle with ovarian cancer—to the private testimonials of people with cancer, chronic fatigue syndrome, and disabilities. Their stories are more than accounts of personal suffering: they abound with moral choices and point to a social ethic. In this new edition Frank adds a preface describing the personal and cultural times when the first edition was written. His new afterword extends the book’s argument significantly, writing about storytelling and experience, other modes of illness narration, and a version of hope that is both realistic and aspirational. Reflecting on both his own life during the creation of the first edition and the conclusions of the book itself, Frank reminds us of the power of storytelling as way to understanding our own suffering.

**Orienting Arthur Waley** Aug 16 2022 Hailed recently as the greatest translator of Asian Literature ever to have lived, Arthur

Waley (1889-1966) had an immeasurable influence on Western perceptions of Asia and on the development of Asian studies in the West. Waley was the single most important force in creating what the English-speaking public understood to be Japanese literature with his popular and critically acclaimed translations of Japanese poetry, no plays and the celebrated 11th-century court romance *The Tale of Genji*. This study of Waley and his Japanese translations provides a provocative examination of Waley's contribution to 20th-century English literature and culture. top graduate of Rugby and Cambridge and a younger member of the Bloomsbury Group. He examines how the social contexts influenced Waley's work and he further locates Waley's Japanese translations within the political contexts of the Japonism movement, British socialism and imperialism and the development of Japanese studies in England. How a cult of things Japanese in the early modern period in Britain led to the emergence of one of the 20th century's most important translators is an interesting story in itself.

**Arthur and Sherlock** Jul 15 2022 2018 Edgar Award Nominee  
From Michael Sims, the acclaimed author of *The Story of Charlotte's Web*, the rich, true tale tracing the young Arthur Conan Doyle's creation of Sherlock Holmes and the modern detective story. As a young medical student, Arthur Conan Doyle studied in Edinburgh under the vigilant eye of a diagnostic genius, Dr. Joseph Bell. Doyle often observed Bell identifying a patient's occupation, hometown, and ailments from the smallest details of dress, gait, and speech. Although Doyle was training to be a surgeon, he was meanwhile cultivating essential knowledge that would feed his literary dreams and help him develop the most iconic detective in fiction. Michael Sims traces the circuitous development of Conan Doyle as the father of the modern mystery, from his early days in Edinburgh

surrounded by poverty and violence, through his escape to University (where he gained terrifying firsthand knowledge of poisons), leading to his own medical practice in 1882. Five hardworking years later--after Doyle's only modest success in both medicine and literature--Sherlock Holmes emerged in *A Study in Scarlet*. Sims deftly shows Holmes to be a product of Doyle's varied adventures in his personal and professional life, as well as built out of the traditions of Edgar Allan Poe, Émile Gaboriau, Wilkie Collins, and Charles Dickens--not just a skillful translator of clues, but a veritable superhero of the mind in the tradition of Doyle's esteemed teacher. Filled with details that will surprise even the most knowledgeable Sherlockian, *Arthur and Sherlock* is a literary genesis story for detective fans everywhere.

**The Price** Jun 02 2021 Victor, a New York cop nearing retirement, moves among furniture in the disused attic of a house marked for demolition. Cabinets, desks, a damaged harp, an overstuffed armchair - the relics of a lost life of affluence he's finally come to sell. But when his brother Walter, who he hasn't spoken to in years, arrives, the talk stops being just about whether Victor's been offered a fair price for the furniture, and turns to the price that one and not the other of them paid when their father lost both his fortune and the will to go on ...

*Janus* Dec 08 2021 The most adventurous, polymathic - and readable - scientific populariser of the age offers in *Janus* a summing up of a quarter of a century's study and speculations on the life sciences and their philosophic implications. Koestler has an interesting theme to propose. It is this; the human brain has developed a terrible biological flaw, such that it is working now against the survival of the race. Something has "snapped" inside the brain. It is no longer necessarily a function which will lead us to a better world, but something demonic, possessed, perhaps

even evil. The anguished humanity of Koestler's concepts and the lucid energy of his style command respect. Here is one of the major political "experiencers" an almost widely informed spirit of the age turning to the crux of human survival on a ravaged planet. The title of the book tells not only of a central allegory of division in the human species. It stands for the rare tension on Koestler's discourses: between desolation and zest, between darkness and noon.

**Excalibur** Jan 09 2022 In *The Winter King and Enemy of God* Bernard Cornwell demonstrated his astonishing ability to make the oft-told legend of King Arthur fresh and new for our time. Now, in this riveting final volume of *The Warlord Chronicles*, Cornwell tells the unforgettable tale of Arthur's final struggles against the Saxons and his last attempts to triumph over a ruined marriage and ravaged dreams. This is the tale not only of a broken love remade, but also of forces both earthly and unearthly that threaten everything Arthur stands for. Peopled by princesses and bards, by warriors and magicians, *Excalibur* is the story of love, war, loyalty, and betrayal—the work of a magnificent storyteller at the height of his powers.

**The Act of Creation** Jan 21 2023 "First published by Hutchinson & Co. 1964"—Page 6.

**The Act of Creation** Nov 19 2022

Reflections on Human Nature Oct 26 2020 He discusses the theory of human nature held by the founders of the American Constitution, giving special attention to James Madison and the "Federalist Papers."

Arthur and Sherlock Mar 11 2022 From the acclaimed author of *The Story of Charlotte's Web*, the rich, true tale tracing the young Arthur Conan Doyle's creation of Sherlock Holmes and the modern detective story.

Darkness at Noon Aug 04 2021 First published in 1941, a classic

portrait of a Soviet revolutionary who is imprisoned and tortured under Stalin's rule finds him agonizingly reflecting on his ironic career under the totalitarian movement.

The Ghost in the Machine Oct 18 2022 An examination of the human impulse towards self-destruction suggests that in the course of human evolution, a pathological split between emotion and reason developed

**The Creation of the World and Other Business** Sep 17 2022 A master dramatist's humorous retelling of the biblical creation story as a parable for our time Breathing new life into timeless biblical tales, Arthur Miller charmingly reimagines the Book of Genesis from the temptation of Adam and Eve to the fraternal tragedy of Cain and Abel. In the beginning, God, generally satisfied with his creation, is nonetheless perplexed by Adam and Eve—why won't they multiply? It takes wily Lucifer to interest them in anything more than playing handball in the Garden of Eden, but their new knowledge comes at a price. The first family is exiled from paradise—just as Lucifer is banned from heaven—and a fallen, morally ambiguous state becomes the destiny of humankind. Though *The Creation of the World and Other Business* was Arthur Miller's first Broadway comedy, it is full of the searching insight and sparkling dialogue that distinguish his best dramas.

*The Tragedy of Arthur* Nov 14 2019 *The Tragedy of Arthur* is an emotional and elaborately constructed tour de force from “one of the best writers in America” (The Washington Post). Its doomed hero is Arthur Phillips, a young novelist struggling with a con artist father who works wonders of deception. Imprisoned for decades and nearing the end of his life, Arthur's father reveals a treasure he's kept secret for half a century: *The Tragedy of Arthur*, a previously unknown play by William Shakespeare. Arthur and his twin sister inherit their father's mission: to see

the manuscript published and acknowledged as the Bard's last great gift to humanity . . . unless it's their father's last great con. By turns hilarious and haunting, this virtuosic novel, which includes Shakespeare's (?) lost play in its entirety, brilliantly subverts our notions of truth, fiction, genius, and identity, as the two Arthurs—the novelist and the ancient king—play out their strangely intertwined fates. **Mr. Peters' Connections** Feb 16 2020 Length: 1 act.

The Act of Creation Feb 22 2023 The author examines the idea that we are at our most creative when rational thought is suspended—for example, in dreams and trancelike states.

**The Act of Creation** Dec 20 2022 The author advances the theory that all creative activities have a basic pattern in common, which he attempts to define.

*Creation and the World of Science* Feb 10 2022 A. R.

Peacocke's *Creation and the World of Science*, an expanded version of his 1978 Bampton Lectures, was widely recognized as a key work on the relation of the sciences to religion, in general, and Christian theology in particular. It has long been seen as a formative contribution to the wide-ranging investigations which now, internationally, constitute this intensely active field. This new reprinting contains the original and influential text and also contains a newsupplement containing key references to the literature of recent years as well as indicating the author's current position on central themes. It

constitutes an essential reference and starting point for the contemporary discussion of key issues in the dialogue between the sciences and theology

Arthur & George Sep 24 2020 Brilliantly imagined and irresistibly readable, *Arthur & George* is a major new novel from Julian Barnes, a wonderful combination of playfulness, pathos and wisdom. Searching for clues, no one would ever guess that the lives of Arthur and George might intersect. Growing up in shabby-genteel nineteenth-century Edinburgh, Arthur is saddled with a dad who is a disgrace and a mum he wishes to protect, and is propelled into a life of action. To his astonishment, his career as a self-made man of letters brings him riches and fame and, in the world at large, he becomes the perfect picture of the honourable English gentlemen. George is irredeemably an outsider, and has no hope of becoming such a picture. Though he's dogged and logical, a vicar's son from rural Staffordshire, he is set apart, and he and his family are targeted in his boyhood by a poison-pen campaign. George finds safe harbour in the reliability of rules, and grows up to become a solicitor, putting his faith in the insulating value of British justice. Then crisis upsets the uneasy equilibrium of both men's lives. Arthur is knocked for a loop by guilt and other dishonourable emotions. George is put to the sorest test, accused of a horrible crime. And from that point on their lives weave together in the most profound and surprising way, as each man becomes the other's salvation. *Arthur & George* is a masterful novel about low crime and high spirituality, guilt and innocence, identity, nationality and race. Most of all, it's a profound and witty meditation on the fateful differences between what we believe, what we know and what we can prove. George and his father pray together, kneeling side by side on the scrubbed boards. Then George climbs into bed while his father locks the

door and turns out the light. As he falls asleep, George sometimes thinks of the floor, and how his soul must be scrubbed just as the boards are scrubbed. Father is not an easy sleeper, and has a tendency to groan and wheeze. Sometimes, in the early morning, when dawn is beginning to show at the edges of the curtains, Father will catechize him. "George, where do you live?" "The Vicarage, Great Wyrley." "And where is that?" "Staffordshire, Father." "And where is that?" "The centre of England." "And what is England, George?" "England is the beating heart of the Empire, Father." "Good. And what is the blood that flows through the arteries and veins of the Empire to reach even its farthest shore?" "The Church of England." "Good, George." And after a while Father will begin to groan and wheeze again. George watches the outline of the curtain harden. He lies there thinking of arteries and veins making red lines on the map of the world, linking Britain to all the places coloured pink: Australia and India and Canada and islands dotted everywhere. He thinks of blood bubbling through these tubes and emerging in Sydney, Bombay, the St. Lawrence Waterway. Bloodlines, that is a word he has heard somewhere. With the pulse of blood in his ears, he begins to fall asleep again.

—excerpt from *Arthur & George*

*After the Fall* Sep 05 2021 Quentin is a successful lawyer in New York, but inside his head he is struggling with his own sense of guilt and the shadows of his past relationships. One of these an ill-fated marriage to the charming and beautiful Maggie, who went from operating a switchboard to become a self-destructive star - a singer everyone wanted a piece of. *After the Fall* is often seen as the most explicitly autobiographical of Arthur Miller's plays, and Maggie as an unflinching portrait of Miller's ex-wife Marilyn Monroe, only two years after her suicide. But in its psychological acuity and depth, and its

brilliant, dreamlike structure, it is a literary, and not just biographical, masterpiece.

**Presence** Apr 19 2020 Collects some of Miller's last published fiction, revealing the playwright's insight, humanism, and empathy.

The Once and Future King Aug 24 2020 DigiCat Publishing presents to you this special edition of "The Once and Future King" by T. H. White. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

**The Great Chain of Being** Mar 31 2021 Paper mosaics, silk screen prints, fold-outs, silhouettes, and other types of cards to make yourself.

Reality vs Quantum Mysticism Dec 16 2019 Science has made tremendous advances in overcoming superstition and replacing “revealed truth” with proven factual truth. Quantum mechanics and the Theories of Relativity have contributed immensely to these advances. But, in spite of this, certain absurdities, referred to as the “quantum enigma”, have emerged from the standard interpretation of quantum mechanics. This has been recognized by some physicists, but the absurdities have been largely ignored by most to the detriment of our understanding of the creation, evolution and nature of the universe. Albert Einstein himself felt quantum mechanics was incomplete and spent the last 3 or 4 decades of his life fighting the proponents of the absurdities. It has been claimed that Einstein lost this battle, but the author disagrees and provides proof of the opposite. Einstein may have made slight mistakes in developing his Theories of Relativity, however, that may have unintentionally contributed to the

absurdities and the author's work supports the statement that "Einstein may have been wrong just where most thought he was right and right just where most thought he was wrong." The author provides a new analysis of space and time and corrections to aspects of quantum mechanics and the Theories of Relativity that may eliminate the absurdities. This could provide a new understanding of the birth, evolution and nature of the universe and possible explanations for dark energy and dark matter. This is presented in a manner that can be understood and appreciated by all curious folks, not just physicists, and will help them understand their universe and the amazing things physicists have accomplished.

**Insight and Outlook** Apr 12 2022

**Here Lies Arthur** Jul 03 2021 A brilliantly inventive re-creation of the King Arthur tale by master storyteller Philip Reeve. Welcome to the dark side of Camelot. Gwynna is just a girl who is forced to run when her village is attacked and burns to the ground. To her horror, she is discovered, but it is Myrddin the bard, a traveler and spinner of tales, who has found her. He agrees to protect Gwynna if she will agree to be bound in service to him. Gwynna is frightened but intrigued, for this Myrddin serves the young, rough, and powerful Arthur. In the course of their travels, Myrddin transforms Gwynna into the mysterious Lady of the Lake, a boy warrior, and a spy. It is part of a plot to transform Arthur from the leader of a ragtag war-band into King Arthur, the greatest hero of all time. If Gwynna and Myrddin's trickery is discovered, what will become of Gwynna? Worse, what will become of Arthur? Only the endless battling, the mighty belief of men, and the sheer cunning of one remarkable girl will tell.

Arthur Szyk Jun 21 2020 An indispensable and timely publication on the life and work of the great Polish-Jewish-

American artist-activist Arthur Szyk.

The Music of Creation, with CD May 13 2022 Here Peacocke and Pederson compose a rhapsody on divine creativity in three movements. Through an extended analogy, they reveal how Christian understandings of creation can be brightly lit by scientific insights and approached analogously through examining musical creativity. They also include relevant selections on an accompanying CD-ROM. Composition, fugal arrangement, rhythm and tempo, jazz improvisation all shed light on creation. Creation from nothing, continual creation, incarnate creativity, communal or ecclesial creativity, open-ended future creativity--new ways of thinking about the Christian teaching are illumined and exemplified in musical creativity from Bach to Monk: Prelude First Movement: Creation with Time Second Movement: Creation in Time Bridge Passage: Creation Fulfilled Third Movement: Working at Creation Coda: Ongoing Creation

**Science and Earth History** Jun 14 2022 In this comprehensive treatment of the ongoing conflict between creationists and evolutionary scientists, well-known geomorphologist Arthur Strahler carefully examines creationists' claims of scientific evidence for the six-day divine creation of the universe, followed by the catastrophic flood of Noah, as claimed in Genesis. The creationists' arguments are examined and evaluated against the findings of mainstream science in the fields of cosmology, astronomy, geophysics, geology, paleontology, and evolutionary biology. Updated with a new preface and responses to recent attacks on evolutionary theory, *Science and Earth History* can serve as both a popular overview of earth history and as a scholarly anecdote to the fictions of creationism once again finding their way into classrooms and universities. Strahler illuminates the controversy by reviewing the philosophy,

methodology, and sociology of empirical science, as contrasted with the belief systems of religion and pseudoscience. The author also includes lucid criteria for distinguishing science from pseudoscience, and reviews the great discoveries and developments in science that point to the evolution of life over the earth's three-billion-year history. Arthur Strahler was professor and chairman of geomorphology at the Department of Geology of Columbia University.

**God's Chosen Fast** Oct 14 2019 Arthur Wallis offers this balanced study on fasting, and seeks to give to the subject the weight that Scripture gives it while also avoiding exaggeration and over-emphasis. This book includes a biblical index, and an appendix dealing with the textual problems surrounding four references to fasting in the New Testament.

**Sefer Yetzirah** Oct 06 2021 2019 Reprint of 1923 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition software. Sefer, Book of Formation, or Book of Creation is the title of the earliest extant book on Jewish esotericism, although some early commentators treated it as a treatise on mathematical and linguistic theory as opposed to Kabbalah. Yetzirah is more literally translated as "Formation"; the word Bria is used for "Creation". The book is traditionally ascribed to the patriarch Abraham, although others attribute its writing to Rabbi Akiva. Modern scholars have not reached consensus on the question of its origins. According to Rabbi Saadia Gaon, the objective of the book's author was to convey in writing from a Jewish perspective how the things of our universe came into existence. Translated from the Hebrew, with annotations by Knut Stenring. Includes the 32 paths of wisdom, their correspondence with the Hebrew alphabet and the Tarot symbols and with an introduction by Arthur Edward Waite.

**Iroquois Creation Story** May 01 2021

**Elements of Form & Design in Classic Architecture Shown in Exterior & Interior Motives Collated from Fine Buildings of All Time on One Hundred Plates**

May 21 2020 "This book aims to initiate all who are concerned with the design of buildings into first principles of arrangement, irrespective of style, period or fashion, and its scope is deliberately focussed on the most elementary of known forms. The culminating periods of Greek and Roman architecture have here been drawn upon as well as the whole range of matured Renaissance architecture in Europe, and the book has been compiled not only from actual buildings but also from the wider field of projected designs. In the illustrations, all the buildings and motifs are presented in their simplest aspect, free from confusing detail, so that the main lines of the various schemes can be understood at a glance and the different forms compared."--BOOK JACKET.

**Social Entrepreneurship** Nov 26 2020 This text brings together the established pedagogy of entrepreneurship with cutting edge nonprofit and public management tools. Measuring social value, earned income, donations and government income, entrepreneurial fundraising and marketing, and social enterprise business plans. For the entrepreneur who seeks to understand the social and non-for-profit sectors.
