Publisher Description  
*Evagrius of Pontus* Mar 14 2022 Evagrius of Pontus (c.345-399) was one of the most prominent figures among the monks of the desert settlements of Nitria, Sketis, and Kellia in Lower Egypt. Through the course of his ascetic writings he formulated a systematic presentation of the teaching of the semi-eremitic monks of these settlements. The works of

Evagrius had a profound influence on Eastern Orthodox monastic teaching and passed to the West through the writings of John Cassian (c.365-435). This is the first complete English translation of Evagrius' Greek ascetic writings, based on modern critical editions, where available, and, where they are not, on collations of the principal manuscripts. Two appendices provide variant readings for the Greek texts and the complete text of the long recension of Eulogios. The translations are accompanied by a commentary to guide the reader through the intricacies of Evagrian thought by offering explanatory comments and references to other Evagrian texts and relevant scholarly literature. Finally, detailed indexes are provided to allow the reader to identify and study the numerous themes of Evagrian teaching.

Modern pathological anatomy on the other hand seeks to rise above the level of merely gathering data and to proceed to a practical knowledge of defined pathological aspects and patterns. JEAN MARTIN CHARCOT's conception of the entite morbide as the abstract basis of nosologically independent phenomena is paradigmatically corroborated in an especially impressive way by the study of tropical diseases. And so the idea suggested itself that we should present the main pathological patterns from tht; fielq. of tropical pathology with particular reference to their interconnection. We s~on came to the firm con clusion that such a compilation could be success\_ iully ~undertaken only by a pathologist from the English-speaking world. The. classic practical knowledge of

our British colleagues, which has matured in world-wide experience, would be bound to find its ideal verification here. And so we turned for help to our friend Prof. WALTER PAGEL (Dr. med., Dr. h. c. Basle, Dr. h. c. Heidelberg) in London. He immediately referred us to Prof. HERBERT SPENCER. That we managed to enlist the help of Professor SPENCER is entirely due to Professor PAGEL's kind offices. We owe the fact that the undertak ing has been completed in relatively so short a time to Professor SPENCER's exceptional knowledge both of his subject and of the field-workers themselves. This detailed study of the construction and development of the minster draws on architectural recording carried out on the building by the RCHME and English Heritage since the early 1970s, as well as more recent discoveries and research, particularly on the stained glass windows. Each major building phase is discussed in turn: the construction of the transept,

the Chapter House, the nave, Lady Chapel, western choir and central tower. The historical background to these phases reveals some of the financial, political and religious events that hampered and/or motivated the building phases and this, and issues of imagery and patronage, are all discussed.

**Medicine in a Multicultural Society** Dec 11 2021 Contains essays dealing with medicine and society in Spain from the 13th-16th centuries. Ch. 9, "The Inquisition and Minority Medical Practitioners in Counter-Reformation Spain: Judaizing and Morisco Practitioners, 1560-1610", appeared in "Medicine and the Reformation" (London: Routledge, 1993). Concludes that the former were wealthier and better educated, and were persecuted for cultural, religious, and economic reasons and not, like the latter, for the way they practiced medicine.

**Normans** May 04 2021 Since the Anglo-Norman period itself, the relations between the English and the Normans have formed a subject of lively debate. For most of that time,

however, complacency about the inevitability of assimilation and of the Anglicization of Normans after 1066 has ruled. This book first challenges that complacency, then goes on to provide the fullest explanation yet for why the two peoples merged and the Normans became English. Drawing on anthropological theory, the latest scholarship on Anglo-Norman England, and sources ranging from charters and legal documents to saints' lives and romances, it provides a complex exploration of ethnic relations on the levels of personal interaction, cultural assimilation, and the construction of identity. As a result, the work provides an important case study in pre-modern ethnic relations that combines both old and new approaches, and sheds new light on some of the most important developments in English history.
