During the past twenty-five years, researchers have made impressive advances in pinpointing effective learning strategies (namely, activities the learner engages in during learning that are intended to improve learning). In *Learning as a Generative Activity: Eight Learning Strategies that Promote Understanding*, Logan Fiorella and Richard E. Mayer share eight evidence-based learning strategies that promote understanding: summarizing, mapping, drawing, imagining, self-testing, self-explaining, teaching, and enacting. Each chapter describes and exemplifies a learning strategy, examines the underlying cognitive theory, evaluates strategy effectiveness by analyzing the latest research, pinpoints boundary conditions, and explores practical implications and future directions. Each learning strategy targets generative learning, in which learners actively make sense out of the material so they can apply their learning to new situations. This concise, accessible introduction to learning strategies will benefit students, researchers, and practitioners in educational psychology, as well as general readers interested in the important twenty-first-century skill of regulating one's own learning. This reconceptualization of the text "Understanding Earth" reflects the fundamental changes in the field of physical geology over the past several years. The Capsule Summary provides a quick review of the key concepts covered in the full Outline—perfect for exam review! Student evaluation of teaching is an established measure of teaching performance in nearly every university worldwide. It is also a subject of challenging social science research, with several methodological controversies. This diploma thesis addresses the specific administrative issue of when to conduct student evaluation surveys: throughout the semester, before the final exam, or after the final exam. This issue is an extremely important administrative and practical question that raises various methodological concerns. A literature review shows that surprisingly little attention has been paid to this issue. Only 32 studies have addressed the effects of different timings, and they generally found relatively few effects. In the empirical part, the data (n = 5.036) from an experiment at a selected university were analyzed. The experiment involved the replication of seven course-related items before the final exam and again after the exam grades were released to students. A statistically significant increase was found in the overall satisfaction in the post-exam survey, which can be partially explained by the exam experience. Test-retest correlations (median r = 0,49) showed considerable instability of responses and relatively low retest reliability. In addition, response quality was lower in the post-exam survey. These findings speak against asking the bulk of course-related questions after the exam, whereas exam-related aspects cannot be asked before the exam. From a methodological point of view, it thus seems that student evaluation surveys conducted before and again after the final exam provide the most comprehensive insight into student evaluation of teaching. Any law school graduate will tell you that when picking your outline tool you need to pick the best because your outlines are the most important study tool you will use throughout your law school career. Developed by legendary study aid author Steve Emanuel, Emanuel® Law Outlines (ELOs) are the #1 outline choice among law students. An ELO ensures that you understand the concepts as you learn them in class and helps you study for exams throughout the semester. Here's why you need an ELO from your

first day of class right through your final exam: ELOs help you focus on the concepts and issues you need to master to succeed on exams. They are easy to understand: Each ELO contains comprehensive coverage of the topics, cases, and black letter law found in your specific casebook, but is explained in a way that is understandable. The Quiz Yourself and Essay Q&A features help you test your knowledge throughout the semester. Exam Tips alert you to the issues and fact patterns that commonly pop up on exams. The Capsule Summary provides a quick review of the key concepts covered in the full Outline—perfect for exam review! College. Party. Drama. Life. When Johanna ?Jo? Gold, witty college life blogger and senior at Rutan University, decides to move in with three male strangers her last semester of school, her life unexpectedly turns upside down. While dealing with her new roommates, A.J., the pompous rich kid who feels trapped in following his father's footsteps; Rob, the prematurely engaged former womanizer who tries to force Jo out of the house at all costs; and Drew, the 21-year-old virgin genius whose encounters with women have been more than limited, Jo learns that change isn't always easy and it's up to her to learn how to survive the remainder of her time at Rutan the best that she can. Along with searching for her missing mother, figuring out a clever way to pay for school tuition on her own, and dealing with the childish pranks brought on by a certain roommate, Jo's issues seem more complicated than the average 21-year-old. Can Jo endure the dramatic perils of college while planning for life after graduation? Navigating through college isn't easy especially when you don't know what the future holds, but Jo is determined to conquer her present even if it means figuring out what being an adult is all about. With graduation around the corner, Jo and her roommates have some growing up to do and the last semester is all they have. College is complicated. Partying is a necessity. Drama is guaranteed. Life is just beginning.
