NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BUSINESS BESTSELLER USA TODAY MONEY BESTSELLER "Tough times make or break people. My friend Gary teaches you how to make the tragic into magic. Read & reap from this great book." --Mark Victor Hansen, Co-creator, #1 New York Times best selling series Chicken Soup for the Soul Co-author, Cracking the Millionaire Code, The One Minute Millionaire, and Cash in a Flash. Author, Richest Kids in America "Real estate buyers and sellers have to SHIFT their mindset to new and more creative strategies in this challenging real estate market. This book shows them excellent ways to survive and thrive." --Robert Allen, author of the New York Times bestsellers Nothing Down, Creating Wealth, Multiple Streams of Income and The One Minute Millionaire. "Change happens. It's natural. It's ever present. It's reoccurring. So when markets shift you need to as well. No one explains this better in the real estate industry than my good friend Gary Keller and his team of talented co-authors. Their latest book, SHIFT, is perfect for all real estate professionals. It captures the very essence of a shifting housing market and what Realtors need to do to thrive therein. SHIFT will help you alter your focus and your actions to ensure that you get your head back in the game and increase your market share, irrespective of strong or weak market conditions. It's a great book - read it today." --Stefan Swanepoel, author of Swanepoel TRENDS Report, 2006-2009 "Need help weathering the storm in today's real estate market? If so, reach for Gary Keller's new book, Shift-- it's the lifesaver you need today to thrive tomorrow. Shift is rich in easy-to-understand strategies, charts, and illustrations that show you exactly what you need to do to thrive in today's very challenging and 'shifted' real estate market." --Bernice Ross, Inman News The Millionaire Real Estate Series More than 1,000,000 copies sold! SHIFTS happen... Markets shift, and you can too. Sometimes you'll shift in response to a falling market, and other times you'll shift to take your business to the next level. Both can transform your business and your life. You can change your thinking, your focus, your actions, and, ultimately, your results to get back in the game and ahead of the competition. The tactics that jump-start your business in tough times will power it forward in good times. No matter the market-shift! SHIFT explores twelve proven strategies for achieving success in any real estate market, including Master

the Market of the Moment: Short Sales, Foreclosures, and REOs Create Urgency: Overcoming Buyer Reluctance Re-Margin Your Business: Expense Management Find the Motivated: Lead Generation Expand the Options: Creative Financing Paranormal Investigator Elizabeth Hanson knows all about how much pain shifters can inflict on the human population. She isn't a shifter by choice, and there's nothing she wants more than to help catch the criminals running amok in her town. It's more than a job. It's a way to contain her anger toward the animals that destroyed her life. Her ability to spot the truth makes her a good detective, but her hatred for the bad guys gives her renewed drive and determination to live. Bear shifter Rhys Donovan has his hands full, keeping his bar running smoothly and his brothers in line. When he realizes women are going missing, and his bar connects them to one another, he calls for reinforcements. One sniff of the sexy detective in charge of their case and he knows she's meant to be his. But, given her hatred of shifters, getting her to admit her fate lies with him will be one of the hardest challenges of his life. When her painful past resurfaces and new secrets are revealed, it takes more than their sizzling chemistry to solve their mysterious case and finally convince her that she's meant to be his. Hope for spiritual refugees, church burnouts, and freedom seekers. After years of participating in a comfortable faith tradition, many find themselves in a spiritual wilderness, feeling disillusioned with church, longing for more freedom and less religion in their lives. If that describes you, you're in good company. Countless men and women are in the middle of a shifting faith—and aren't sure where to turn. But losing beliefs doesn't mean you have to lose your faith. Pastor, friend, and spiritual director Kathy Escobar has journeyed with many who have experienced significant shifts in the faith they once considered unchangeable. Through their stories and her own, Kathy has discovered that growth and change are natural parts of life in our relationship with God. Filled with honest stories and practical insights, Faith Shift gives language to what many experience as their faith evolves. With an inviting blend of vulnerability and hope, it addresses the losses that come with spiritual shifts and offers tangible practices for rebuilding a free and authentic faith after it unravels. Includes personal reflection and group discussion questions at the end of each chapter. It is possible to access the same sense of well-being, clarity, inner freedom, and loving connection realized by the world's meditation masters. We can do this by shifting our awareness in the midst of our daily lives. Shift into Freedom presents innovative teacher Loch Kelly's training manual for actively participating in the evolution of your own consciousness. Synthesizing insights from neuroscience and psychology with wisdom from the world's contemplative traditions, Shift into Freedom offers an accessible and remarkably powerful series of meditations that lead us to a little-known natural capacity called "awake awareness." Through an unfolding process of "small glimpses, many times," these exercises shift us from a thought-based knowing to an awareness-based way of operating in the world. With continued practice, we learn to "unhook" from our customary home in our ego-based identity—and then sustain an embodied presence and relatedness known as "open-hearted awareness." Loch Kelly teaches that this is "the meeting place of awakening and growing up, where we have the capacity to handle a fully emotional, intimate life and act with authenticity and compassion." Learn more about:

- How to separate awareness from thinking to realize that thoughts and emotions are not the center of who we are
- How insights from neuroscience can help us learn how to embody awakening
- Ego-identification, a pattern of thought that co-opts the body's boundary program and creates a mistaken identity
- The paradox of "being home while returning home"
- Finding the off-switch for the chattering mind
- How to intentionally and immediately shift into peace of mind any time of your day
- Awakening as a natural process of human development, which unfolds as waking up, waking in, and waking out
- Meditation practices for all phases of the journey of awakening and embodiment
- Four stages of spiritual growth: recognition, realization, stabilization, and expression
- Untying the "knots" in our mindbody system to liberate us from our deepest doubts and fears
- How to move from deliberate mindfulness to effortless mindfulness and heart mindfulness
- How to effortlessly focus without using attention
- Discovering your innate happiness that is not dependent on circumstances
- How to welcome and liberate sub-personalities after initial awakening
- A user's manual for your consciousness to help you free yourself from the limits of ego-identification and live

from open-hearted awareness With Valerie's mate back in her arms and her pregnancy well under way, she thought she should be able to simply enjoy some peace and quiet. Should is the operative word, and Trey and Valerie couldn't even enjoy a relaxing flight over the desert without finding trouble. Vampires, and they weren't any she recognized. Where they came from and why they were in the middle of the desert, out in the open with daylight on the way, were only two of the many questions she had for them. The answers will take half-vampire/half-witch Valerie Hanigan and her dragon-shifting mate, Trey, on a journey they never contemplated and in no way felt ready for. Life, however, has a way of forcing issues, pushing for more, and presenting Valerie with a vicious life lesson when warnings aren't heeded. Boys will be boys but these boys shift into big trouble , the old men are not best pleased. While coming under fire from unknown foes , they learn , their home may have to face an army, and its not the only army , never rains but it pours .What ever occurs time will tell in the end . I have tried in these tales to give the old Mythological monsters a new lease of life give them a genealogy , a genetic identity. And write a science fiction story that is fun , but also just a little scary , and maybe a little more respect for bad old men . Because I bloody say so . Yours faithfully MK Baker With a couple failed marriages under his belt, Captain Jack Tracey knows how tough it is to balance a personal life with his job. But nothing in his long career has prepared him for the moment Diesel Evers walks into his firehouse. Sure, Jack's contended with cocky young recruits before, but this seriously hot hotshot rookie is poised to crash and burn. With early retirement in sight, Jack can't afford to get involved with a subordinate. Having transferred to Jack's house after a disastrous relationship, Diesel isn't looking for another commitment. But that doesn't mean he can't have a little fun with his sexy silver fox of a new boss. Sometimes you have to bend the rules a bit...or shatter them completely. With an unidentified saboteur endangering his squad, Jack doesn't want to draw any more heat, but Diesel is too damn tempting to deny. Indulging their desires feels worth the risk—until trouble on the job lands Jack in the hospital, forcing them both to decide what's worth fighting for. This book is approximately 63,000 words One-click with confidence. This title is part of the Carina Press Romance Promise: all the romance you're looking for with an HEA/HFN. It's a promise! Carina Press acknowledges the editorial services of Deborah Nemeth Hard Truths, Healing Truths is a soul (emotion, mental, and willpower) stimulating book created to get you to dig deep within to get honest with yourself and properly examine your circumstances. No fluff or long stories, but straight to the point, thought provoking, bite size powerful messages to make shift happen in your life and discover or create your true truth. This book shows sixty-two stories plus of events that occurred during the forty years of being a nurse. Some of the stories can be happy and funny events, while others can be sad and heart-breaking. The stories started to occur to a young man who went into nursing during the Vietnam War in 1967, and these ended in 2008. It talks about so many people suffering and dying and the employees who opened up their hearts to comfort the patients and their families. Many cried with them in the final hours of life. I was a nurse and hospital supervisor for a total of forty years. And I often cried with the patients, their families, and the staff. I was glad to be able to be there to support all of them who needed my support. However, it left me scared for life. Every time I see a happy movie or sad movie with a happy ending, I find myself crying. I became a crying man when I left nursing. My heart goes out to all who are still supporting the very critical and dying patients. God bless them all. Resource added for the Automotive Technology program 106023. Nothing shines like classic cars under the Miami heat. With engines revving hot and emotions running high, sparks are sure to fly . . . Tori Chazov isn't exactly the girl next door. For one, if the neighbors found out she's an FBI asset and the daughter of a KGB defector, she'd have to grab her go bag and run. Then there's her day job: making magic happen under the hood of big beautiful muscle cars. She's more likely to be wearing engine grease than mascara, and most guys don't fantasize about their mechanics. But then most girls don't fantasize about FBI tech geniuses, either, and Tori has it bad for Emery Martin. Emery has a past. She can see it in the way he keeps his body honed like a weapon, in the mysterious scars under his snap-button shirts. She can see it in the way his eyes follow her around the room, even though he never says a word. He's going to have to start talking now, though. A vicious Russian hit squad is on the way to Miami to

take Tori out for good. And without Emery's help, she might not make her last great escape . . .

Thousands of readers have transformed their lives through Beca Lewis' Shift Series. Now you can have The Shift Series in one box set. Readers claim that these are the best spiritual self-books they have ever read. At least one of these books will shift your life forever. We summarize the global shift to cashless consumer payments and the opportunities for consumer-facing businesses as they navigate the change. Today's women work not one but three shifts: the first from nine to five, the second at home, and the third in their minds as they review the decisions and actions of the day. While the first and second shifts may be physically exhausting, the third shift can be psychologically rending because many women use it to second-guess their motives, doubt their choices, and question their trade-offs. Michele Bolton shows women how to turn the third shift into a source of self-awareness and self-confidence instead. Drawing from a three-year study of women in Silicon Valley and her own experiences as a working mother, Bolton explores the three most important dilemmas all women face, whether they're corporate executives, entrepreneurs, or full-time moms. She then presents women with a practical plan for facing these dilemmas, making the hard choices, and embracing their decisions. ***ALL the profits from Shift will go to World Bicycle Relief.*** This is a must-read book for anyone looking to change their perspective and live a more purposeful life. Michael O'Brien (OB to his friends) shows that the secret to becoming our best starts with our mindset. Drawing on his personal story from his "last bad day", Michael shares the emotional and physical recovery that starts with his near-death accident on the morning of July 11th, 2001. A keen cyclist out on a training ride in New Mexico, Michael was hit head-on by an SUV that crossed into his lane traveling 40 miles per hour. He takes readers into the early darkness of his recovery and the perspective shift that gave him the awareness that he could be defined by how he responded to his tragedy - not by the tragedy itself. Michael uses his newfound perspective to fuel his recovery and help him create a better tomorrow. In Shift, Michael introduces "ways of being" that can help anyone build a stronger peloton (the team that transcends the individual) and get closer to the best version of themselves. Michael's story is life changing, inspirational, and insightful. Shift is a book about the power of mindset, perspective, and grit to enable each of us to ride the ups and downs of our life's journey. Nuclear Magnetic Shift Reagents presents the proceedings of the Symposium on the Chemistry of Nuclear Magnetic Resonance Shift Reagents, held in Dallas, Texas, on April 9-11, 1973. This book discusses the fundamental aspects of shift reagent chemistry as well as the physical and chemical properties of shift reagents. Comprised of 16 chapters, this compilation of papers starts with an overview of the deuterium isotope effect in lanthanide shifts. This text then examines the variations in coordination geometries for chemically equivalent molecules of shift reagent-substrate complexes in the solid state, which illustrate the ease with which changes occur in the coordination sphere of lanthanide complexes. Other chapters discuss the dipolar nature of proton resonance shifts in lanthanide shift reagent systems. This book considers as well the feasibility of using chiral shift reagents. The final chapter deals with the effects of chemical equilibrium and adduct stoichiometry in studies of shift reagent. Chemists, biochemists, and molecular physicists will find this book useful. Go from Stressed to Best using Personality Type. Gain new insight as we help you identify your Personality Type and understand how it shapes your everyday experiences. Use this information to better understand yourself and everyone around you. You will be able to reduce your stress, regain control of your life, and to improve every relationship in your life, personal and professional. "Practical and accessible, this book provides the first step-by-step guide to cognitive strategy instruction, which has been shown to be one of the most effective instructional techniques for students with learning problems. Presented are proven strategies that students can use to improve their self-regulated learning, study skills, and performance in specific content areas, including written language, reading, and math. Clear directions for teaching the strategies in the elementary or secondary classroom are accompanied by sample lesson plans and many concrete examples. Enhancing the book's hands-on utility are more than 20 reproducible worksheets and forms"-- Asian industrial competition, from Japan, China but also India, attracted greater public attention in Europe during the inter-war period than ever before. Indian industrial employment

became the subject not only of extensive official enquiries, intensified legislation, a growing number of academic studies and of more popular writings, but also of debates within and between European trade unions. Let go of negative thoughts, renew your perspective, and create a strong, healthy mindset. Whether you have encountered tragedy or have been worn down over time from experiences that have left you feeling overwhelmed, fearful, angry, or sad, this is your invitation to recognize that You are NOT defined by what's happened to you. You are defined by what you do. You hold the power to shape your reality when you consciously choose your responses to what life throws your way. In her groundbreaking book, Karen Allen shares her highly acclaimed Stop & Shift system, a mental strength training exercise that will help you trade your default state of negativity and discontent for a resilient mindset grounded in purpose and passion. By practicing this mindset conditioning technique, you will be able to own your choices and navigate life's ups and downs—in the moment—with empathy and intentionality. You will make better decisions that are not driven by your emotions or ego, but instead shaped by quality thoughts. As you retrain your brain to respond productively to challenges, loss, chaos, and the everyday annoyances that erode your composure and steal your joy, you will overcome stress, self-doubt, and anxiety and break free from dwelling on the past and neglecting your needs. With dynamic exercises, action items, and journaling opportunities, you'll learn to Silence Thoughts On Purpose so that you can cultivate a mindset that is Strong, Healthy, Intentional, Focused, and Transformed. If you're ready to let go of everything that's holding you back from living a better life, this is your moment to Stop & Shift.

The New York Times bestselling Driven series continues with a standalone story about finding love where you least expect it... Behind the wheel, racing champion Zander Donovan is at the top of his game. But after too much excess in his personal life, he's forced to step away. He needs to accomplish something all on his own—outside of his famous father's shadow. Getty Caster is running away from the abuse that clouds her past. She thinks she's found the perfect escape—until she discovers a stranger in the beachside cottage she'd been promised. He's undeniably sexy, but she's there to heal. Alone. Before long though, fighting with each other turns into fighting their attraction. And giving into desire sets off a chain reaction that has their pasts colliding. With an unexpected love on the line, can they overcome the fallout to build a future?

12 Hour Shift By: M. Thompson Just another typical hot summer evening in Redding, California, or so it seems... The alarm clock wakes Quinn. Another fun-filled evening of driving a taxi is before him and he is getting tired of it. As he is fed by his dear Aunt Ginger, his little brother, Donnie, walks into their home, telling them both how he had met a gorgeous vixen from the local college. After approval from their Aunt, this beautiful woman comes over. Strange feelings emerge from within Quinn and Ginger - this young woman is very bizarre. After spending time alone with Donnie and an Ouija board, they spoke with something else for a time. Ginger finds out, expressing her dislike for Ouija boards. The young beauty doesn't want to leave. Verbal violence erupts, ultimately causing the young beauty to leave, but not without giving them some of her venom first. What interest this beauty has in Donnie remains a mystery, for a time, until more strange and bloodcurdling things begin to happen throughout the evening: Donnie becomes progressively ill with something unknown, his elderly and moody neighbor commits suicide, his regular fares disappear and now a mysterious jet black four door sedan menaces the night. It all began with her, that gorgeous young mysterious woman from the college. As the hours pass, everything becomes darker and more life-threatening, with Quinn becoming desperate to save his little brother. Desperation transforms into madness as Quinn fights for his family, attempting to make it through his twelve hour shift.

Possibility Mind Shift (PMS) is a Life Coaching and life altering experience that will have you energized, engaged and enthusiastically examining your life in new ways. The authors share their own stories of living and learning, successes and "oops moments" that help shift perspectives and create new awareness. If you could begin today to make your life fuller, richer and just a bit better than it already is, this is a great start. Filled with thought provoking concepts, examples, techniques, questions, and journaling pages to capture your own thoughts and stories, you will be the co-author of this book! Consider Hilary and Anita as your personal "coaches on pages", nudging you out of your limitations and into all that you can be with a

deep sense of satisfaction, joy and humour. Jump into and celebrate your own possibilities as you experience the mind shift of this PMS! Eight Earth dimension's, seven brother elves, Four ,and his brother selves survive a Dragon attack while making a cinema film in a nearby dimension ,outside the known Eight. But four is more concerned with his young wife ,his new son and making a home in two dimensions . Its should be easy ,if you can shift from one dimension into another , but when is life ever that simple . Then the giants came , no big monsters with clubs, but a sophisticated form of Hominids , with advanced technology and their own ends. The story just got bigger. Charlie learns that sometimes the most heroic thing you can do is ask for help. One night, Charlie's mom entrusts him with closing up the café while she runs an errand. Distracted by the rivals who come in to taunt him, Charlie completely forgets to turn off the stove when he leaves. When Charlie and Pudge come back after their hockey game, they're devastated to find there has been a fire at the café. And the insurance company won't pay for the damage because Charlie is underage and shouldn't have been using the stove. Charlie is overwhelmed by guilt. His hockey game and friendships suffer. And with bank payments looming, his mom decides she must take a job in another city. When he finally tells his teammates what happened, they all suggest ways to help. With support from the community, and relying on green principles, like using building materials that have been thrown out or are no longer needed (freecycling!), they pull together and pull it off at the last second! My intent with this book is to help you identify process and how it looks during your shift. This book will also teach you on how to overcome and become victorious through all of life's storms. Based on 4 1/2 years Joe Clifford Faust spent working in Law Enforcement, The Mushroom Shift is a snapshot of a different world that isn't that far in the past. Yet while it comes from a time before political correctness, its theme of men struggling to hang on to their jobs is as relevant now as when the book was first written. It's also the most unusual police story you'll ever read, with no gunshots or car chases, where the mundane becomes a grind. Profane and darkly funny, it captures all the humor and horror, the triumphs and tragedies that are a part of daily life for those who wear a badge. It tells the story of Clarence Raymond Monmouth, a deputy with the Badlands County Sheriff's Department in Modern Times, Wyoming, who is finishing his third year on the despised Mushroom Shift - midnight to eight a.m. - in the final weeks of 1985. As the year draws to a close, Monmouth comes to realize that the county's aging Sheriff will soon be succeeded by the political enemy who put Monmouth on the Mushroom Shift to begin with. Survival mode kicks in and he begins to consider his options, interrupted by his crumbling marriage, his drinking, and the never-ending parade of drunk drivers, family fights and perverts that make up small town police work. Essential strategies the nonprofit community can use to take advantage of rapidly changing technologies and new communication methods in our ultra-connected society In these challenging economic times, it is more important than ever for nonprofits to focus on shaping policy, building capacity, developing talent, improving their marketing and promotion, fundraising, and developing partnerships/collaboration for organizational success. Shift & Reset: Strategies for Supporting Causes in a Connected Society teaches the nonprofit/social change/philanthropy/cause community how to take advantage of rapidly changing technologies and new communication ecosystem that exist in our connected society. Addresses the most critical challenges facing the nonprofit/social change/philanthropy/cause community Re-envisions how we support causes and address serious issues in our connected society Outlines how organizations must operate—and what happens when they don't re-think their work Features interviews with over twenty-five leading thinkers/authors/organizational leaders Innovative and right on time, Shift & Reset equips nonprofit professionals with a set of three core principles, a five-step checklist of immediate action items, as well as a list of ten "must-read" items. It's been 5 1/2 years since the Shift first plunged the industrialized world into darkness. Left with only a few old diesel engines and Classic Rock albums recorded on vinyl, the EMPs have forced the survivors to adapt to a world devoid of computers, bereft of a global economy and reeling without Facebook. Our favorite obsessive-compulsive Chris Jung has grown up (a little) and now leads the Vicious Rabbits Bicycle Mounted Cavalry through the necropolis of the DC Beltway region, protecting Rochelle and her allies in the Orange Pact from bandit raids. Meanwhile, Reverend Rita Luevano struggles to

maintain an uneasy peace between the Unitarian majority and the Christian minority in Greater Monticello. The Orange Pact allies are threatened by foes all around. Outnumbered and outgunned, they stand against the rising tide of chaos and tyranny largely through the wily interventions of the intelligence organization known as the Swan, headed by Meredith Jung. But the darkness is closing in on this little slice of sanity in the Shenandoah Valley. Meredith knows it's only a matter of time until the Lambs of God in Lynchburg decide to attack, and when they do, there will be no stopping them. Furthermore, Meredith carries a secret so potentially devastating that it dwarves the prospect of being overrun by religious fanatics bent on their destruction. Rita is called to join Chris and his Bicycle Mounted Cavalry on a mission of utmost urgency that leads them into the heart of darkness: suburban Maryland. Along the way, they discover that nothing is as it seems. Between Meredith's secret and the revelations uncovered in Maryland, Chris, Rita and Meredith find themselves where they would really rather not be, at the center of the vortex where the entire fate of humanity hangs in the balance.
