Sample Book Insights: #1 The ability to delay gratification is one of the most important skills in life, and it is learned through experience. It is used by everyone, everywhere, all the time. The survival of a species depends on its quality and the better animals or tribes master it, the more dominant they become over others. #2 Communication is like an engine oil that makes your life run smoothly. It is important for your self-confidence, soft skills, career, relationships, and life in general. If you don't know how to communicate properly, you will have problems in all areas of your life. #3 Verbal communication is the most basic form of communication between people. It is influenced by fluency of speech, skillset of a sender, accentuation of particular parts of a message, confirmation from a receiver, and paraphrasing the received information in order to make sure that the real intent was understood. #4 The first step on your journey to a new quality of life is awareness and motivation. You must analyze your communication style and pay attention to your communication patterns. You must become aware of these things and find motivation to work on your personal development.
