This topical and absorbing book, written by two eminent journalists, explains why India has entered a new era of coalition politics. It analyses the consequences and implications of this relatively recent phenomenon. India has come a long way from the time since the Congress dominated the country's polity. The authors argue that the multi-party structure of government, or a coalition government, is neither temporary nor an aberration. Coalitions are here to stay, at least in the foreseeable future. The authors dismiss the view that India's polity is essentially bipolar, that is, led by either of the two largest political parties - the Congress or the Bharatiya Janata Party. They do not accede to the contention that other political parties have no option but to align themselves with either the Congress or the Bharatiya Janata Party. Continuing the analysis begun in their earlier work, India in a Time of Coalitions: Divided we Stand (Sage, 2004) both authors skilfully piece together the complex jigsaw of Indian politics. The authors point to the fragmentation of Indian polity with the rise of caste-based and regional parties and the formation of coalitions at the federal as well as provincial levels. This, they say, should not be perceived as a negative feature but as a positive influence on the working of the country's democratic structures. The authors take the view that coalition governments are in fact better equipped to deal with the tensions of India's deeply divided and highly hierarchical society. In comparison, governments dominated by single parties tend to both centralize and homogenize. Among the issues the book analyzes are " The impact of the April-May 2004 general elections that saw the dramatic decline of the National Democratic Alliance led by the BJP and its replacement by a government formed by the United Progressive Alliance coalition led by the Congress with outside support from four left parties " A gradual revival in the fortunes of the Congress after the party had witnessed its traditional supporters - including the

minorities and the disadvantaged groups - deserting it in large numbers " The sudden rise and fall of the BJP from the time it was almost wiped out in 1984, the party's faction-ridden character and its inability to quickly come to terms with its electoral defeat in 2004 " The growing importance and the changing tactics of the left parties, their internal differences and mainstreaming and their influence on the country's economic policies " The crucial question of whether coalitions can provide stable governments and under what circumstances " The possibility of alternate political formations - led neither by the Congress nor the BJP - coming to power at the centre " The extent to which political coalitions have led to better governance, brought about a greater degree of federalism and reduced the incidence of corruption " The manner in which successive governments have handled the new politics of economic liberalization and globalization together with the crucial issue of growth with equity Challenging many commonly held views regarding India's political processes, this fascinating book will delight anyone interested in Indian politics at the beginning of the 21st century. "Both a tragic monument to the abused bar girls of Bombay and a celebration of their amazing resilience and spirit."—William Dalrymple, bestselling author of *The Anarchy* Published in India to great acclaim and named a Time Out Subcontinental Book of the Year and an Observer Book of the Year, *Beautiful Thing* is a stunning piece of journalism that offers a rare firsthand glimpse into Bombay's notorious sex industry. Sonia Faleiro was a reporter in search of a story when she met nineteen-year-old Leela, a charismatic exotic dancer with a story to tell. Leela introduced Sonia to the underworld of Bombay's dance bars: a world of glamorous women; of fierce love, sex, and violence; of gangsters, police, prostitutes, and pimps. When an ambitious politician cashed in on a tide of false morality and had Bombay's dance bars wiped out, Leela's proud independence faced its greatest test. In a city where almost everyone is certain that someone, somewhere, is worse off than them, she fights to survive—and to win. In *Beautiful Thing*, Sonia Faleiro has crafted one of the most original works about India in years, an "intimate and valuable book of literary reportage . . . [that] will break your heart several times over" (*The New York Times*). "Reporting at its best."—Junot Díaz, *The Rumpus* "A glimpse into a frightening subculture . . . In lesser hands, these young people could have come off as clichés, but the author makes sure we care for them and root for them to survive a life that most will never understand. Gritty, gripping, and often heartbreaking—an impressive piece of narrative nonfiction."—Kirkus Reviews (starred review) This book explores the question of family language policy in multilingual households. Presenting six case studies which focus on the experiences of parents and children in French-English bilingual contexts, the author draws conclusions about the impact of parental language management on the family as a whole which can be applied to transnational families from other linguistic backgrounds. While many parental guides on bilingual childrearing have been published in recent years, little attention has been paid to the possible impact of such language strategies on the experiences and interrelationships of bilingual family members. This book is unique in focusing in depth on the psychology and experiences of the child, and it will be of interest to readers in fields as diverse as sociolinguistics, language policy and planning, sociology of youth and family, and child psychology. In the decades since Latinas began to hold public office in the United States in the late 1950s, they have blazed new trails in public life, bringing fresh perspectives, leadership styles, and policy agendas to the business of governing cities, counties, states, and the nation. As of 2004, Latinas occupied 27.4 percent of the more than 6,000 elected and appointed local, state, and national positions filled by Hispanic officeholders. The greatest number of these Latina officeholders reside in Texas, where nearly six hundred women occupy posts from municipal offices, school boards, and county offices to seats in the Texas House and Senate. In this book, five Latina political scientists profile the women who have been the first Latinas to hold key elected and appointed positions in Texas government. Through interviews with each woman or her associates, the authors explore and theorize about Latina officeholders' political socialization, decision to run for office and obstacles overcome, leadership style, and representational roles and advocacy. The profiles begin with Irma Rangel, the first Latina elected to the Texas House of Representatives, and Judith Zaffirini and Leticia Van de Putte, the only two Latinas to serve in the Texas Senate. The authors also interview Lena Guerrero, the first and only Latina to serve in a statewide office; judges Linda Yanes, Alma Lopez, Elma Salinas Ender, Mary Roman, and Alicia Chacón; mayors Blanca Sanchez Vela (Brownsville), Betty Flores (Laredo), and Olivia Serna (Crystal City); and Latina city councilwomen from San Antonio, El Paso, Dallas, Houston, and Laredo. "Abstract: The Oxford Handbook of Comparative Health Law addresses some of the most critical issues facing scholars, legislators, and judges. How, for example, can the law protect against threats to public health that can quickly cross national borders? How can it ensure access to affordable health care or regulate the pharmaceutical industry? Indeed, when matters of life and death literally hang in the balance, it is especially important for policymakers to get things right, and the making of policy can be greatly enhanced by learning from the successes and failures of approaches taken in other countries. Where there are "common challenges" in law and health, there is much to be gained from experiences elsewhere. Accordingly, this Handbook considers key health law questions from a comparative perspective. In health law, common challenges are frequent. In addition to those mentioned above, there are questions about addressing the social determinants of health (e.g., poverty and pollution), organizing health systems to optimize use of available resources, ensuring that physicians provide care of the highest quality, protecting patient privacy in a data-driven world, and properly balancing patient autonomy with the interest in preserving life when reproductive and end-of-life decisions are made. This Handbook's wide scope and comparative perspective on health law are particularly timely. Economic globalization has made it increasingly important for different countries to harmonize their legal rules. The many paired and complementary chapters that cover law in American and European contexts represent a novel approach that should allow scholars, students, and policymakers to develop new insight into this complex field. Keywords: health law; comparative law; EU law; UK law; US law; public health; healthcare; social determinants of health; public policy"-- Peaceful legal and political 'changing of the guards' is taken for granted in developed democracies, but is not evident everywhere. As a relatively new democracy, marred by long periods of military rule, Bangladesh has been encountering serious problems because of a prevailing culture of mistrust, weak governance institutions, constant election manipulation and a peculiar socio-political history, which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral 'caretaker government' (CTG) during electoral transitions. This book provides a contextual analysis of the CTG mechanism including its inception, operation, manipulation by the government of the day and abrupt demise. It queries whether this constitutional provision, even if presently abolished after overseeing four acceptable general elections, actually remains a crucial tool to safeguard free and fair elections in Bangladesh. Given the backdrop of the culture of mistrust, the author examines whether holding national elections without a CTG, or an umpire of some kind, can settle the issue of credibility of a given government. The book portrays that even the management of elections is a matter of applying pluralist approaches. Considering the historical legacy and contemporary political trajectory of Bangladesh, the cause of deep-rooted mistrust is examined to better understand the rationale for the requirement, emergence and workings of the CTG structure. The book unveils that it is not only the lack of nation-building measures and governments' wish to remain in power at any cost which lay behind the problems that Bangladesh faces today. Part of the problem is also the flawed logic of nation-building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment. Although democratic transitions, on the crutch of the CTG, have been useful in moments of crisis, its abolition creates the need for a new or revised transitional modality – perhaps akin to the CTG ethos – to oversee electoral governance, which will have to be renegotiated by the polity based on the people's will. The book provides a valuable resource for researchers and academics working in the area of constitutional law, democratic transition, legal pluralism and election law. Humanity is on the cusp of an exciting longevity revolution. The first person to live to 150 years has probably already been born. What will your life look like when you live to be over 100? From the author of the #1 New York Times bestseller *Just Ask!* comes a fun and meaningful story about making the world--and your community--better, one action at a time, that asks the question: Who will you help today? Every night when Sonia goes to bed, Mami asks her the same question: How did you help today? And since Sonia wants to help her community, just like her Mami does, she always makes sure she has a good answer to Mami's question. In a story inspired by her own family's desire to help others, Supreme Court Justice Sonia Sotomayor takes young readers on a journey through a neighborhood where kids and adults, activists and bus drivers, friends and strangers all help one another to build a better world for themselves and their community. With art by award-winning illustrator Angela Dominguez, this book shows how we can all help make the world a better place each and every day. Praise for *Just Help!*: "Generosity proves contagious in this personal portrait of community service by Supreme Court Justice Sotomayor." --Publishers Weekly "For use in civics units or in lessons on being a good neighbor, this provides wonderful encouragement to show that children can help in big and small ways." --School Library Journal Brazil has the tragic distinction of having endured the longest military-authoritarian regime in South America. Yet the country is distinctive for another reason: in the 1970s and 1980s it witnessed the emergence and development of perhaps the largest, most diverse, most radical, and most successful women's movement in contemporary Latin America. This book tells the compelling story of the rise of progressive women's movements amidst the climate of political repression and economic crisis enveloping Brazil in the 1970s, and it devotes particular attention to the gender politics of the final stages of regime transition in the 1980s. Situating Brazil in a comparative theoretical framework,

the author analyzes the relationship between nonrevolutionary political change and changes in women's consciousness and mobilization. Her engaging analysis of the potentialities for promoting social justice and transforming relations of inequality for women and men in Latin America and elsewhere in the Third World makes this book essential reading for all students and teachers of Latin American politics, comparative social movements and public policy, and women's studies and feminist political theory. #1 NATIONAL BESTSELLER • A "searching and emotionally intimate memoir" (The New York Times) told with a candor never before undertaken by a sitting Justice. This "powerful defense of empathy" (The Washington Post) is destined to become a classic of self-invention and self-discovery. The first Hispanic and third woman appointed to the United States Supreme Court, Sonia Sotomayor has become an instant American icon. In this story of human triumph that "hums with hope and exhilaration" (NPR), she recounts her life from a Bronx housing project to the federal bench, a journey that offers an inspiring testament to her own extraordinary determination and the power of believing in oneself. Here is the story of a precarious childhood, with an alcoholic father (who would die when she was nine) and a devoted but overburdened mother, and of the refuge a little girl took from the turmoil at home with her passionately spirited paternal grandmother. But it was when she was diagnosed with juvenile diabetes that the precocious Sonia recognized she must ultimately depend on herself. She would learn to give herself the insulin shots she needed to survive and soon imagined a path to a different life. With only television characters for her professional role models, and little understanding of what was involved, she determined to become a lawyer, a dream that would sustain her on an unlikely course, from valedictorian of her high school class to the highest honors at Princeton, Yale Law School, the New York County District Attorney's office, private practice, and appointment to the Federal District Court before the age of forty. Along the way we see how she was shaped by her invaluable mentors, a failed marriage, and the modern version of extended family she has created from cherished friends and their children. Through her still-astonished eyes, America's infinite possibilities are envisioned anew in this warm and honest book. This book theorizes a philosophical framework for educational policy and practice in the southern Philippines where decades of religious and political conflict between a minority Muslim community and the Philippine state has plagued the educational and economic development of the region. It offers a critical historical and ethnographic analysis of a century of failed attempts under successive U.S. colonial and independent Philippine governments to deploy education as a tool to mitigate the conflict and assimilate the Muslim minority into the mainstream of Philippine society and examines recent efforts to integrate state and Islamic education before proposing a philosophy of prophetic pragmatism as a more promising framework for educational policy and practice that respects the religious identity and fosters the educational development of Muslim Filipinos. It represents a timely contribution to the search for educational policies and practices more responsive to the needs and religious identities of Muslim communities emerging from conflict, not only in the southern Philippines, but in other international contexts as well. In *Troubled Times, a Song of Hope* At the age of seven, during Hitler's rise to power, Sonia Korn-Grimani was officially declared an enemy of the German State. After a perilous escape to the Belgian border, she witnessed the chaos and carnage of the Battle of Belgium. She lived with her family in the shadows, fleeing and hiding from persecution until being placed in an orphanage. There she lived with more than twenty other Jewish children, all disguised as a Catholic orphans, and all kept near starvation. Sonia forged triumph out from these tragedies with unshakable tenacity and beguiling charm, a life chronicled in the new book *Sonia's Song*. She sang to the delight of audiences throughout the world, became an international sensation of radio and television, tutored French to a Queen, and was named a Chevalier by the French Government. *Sonia's Song* follows this remarkable woman's transformation, starting from her childhood in Germany and Belgium in the 1930's and 40's, continuing post-war to Australia and Malaysia, and touching on her life in modern France and the Americas. "Sonia Korn-Grimani has told the story of courage and the incredible indomitable spirit of a mother who refused to have her children become victims," said Congressman Tom Lantos about the foreign-language editions of the book in 1999. "As a Holocaust survivor, myself, I lived many moments of this powerful tale. The sights, sounds, and smells were very real." As current events remind us, morality and the fundamental convictions of individuals are severely tested by the chaos of war. At a tender age, as Sonia witnessed the horrific struggles of Jews, she was confronted with the complex philosophical question: is a person who saves lives while exploiting them praiseworthy? This dilemma is one of many in this compelling narrative, where innocence and evil battle for control. *Sonia's Song* is the complex, true story of one refugee's success over all odds, and shows us how heroes may not always be what they seem. Elie Wiesel writes, "Korn-Grimani describes not only suffering she had to endure, but how she succeeded in overcoming it... I am sure that *Sonia's Song* will touch the hearts of many readers." On a summer night in 2014, Padma and Lalli went missing from Katra Sadatganj, an eye-blink of a village in western Uttar Pradesh. Hours later they were found hanging in the orchard behind their home. Who they were, and what had happened to them, was already less important than what their disappearance meant to the people left behind. Slipping deftly behind political maneuvering, caste systems and codes of honor in a village in northern India, *The Good Girls* returns to the scene of their short lives and shameful deaths, and dares to ask: What is the human cost of shame? As son of the Compassionate Director of the Dominion of the Americas, Will, along with his twin brother Berk, has been groomed for leadership in a society that values genetic fitness, but he encounters information which causes him to question that society as well as his own identity. *Crude* is the unexpurgated story of oil, from the circumstances of its birth millions of years ago to the spectacle of its rise as the indispensable ingredient of modern life. In addition to fueling our SUVs and illuminating our cities, crude oil and its byproducts fertilize our produce, pave our roads, and make plastic possible. "Newborn babies," observes author Sonia Shah, "slide from their mothers into petro-plastic-gloved hands, are swaddled in petro-polyester blankets, and are hurried off to be warmed by oil-burning heaters." The modern world is drenched in oil; *Crude* tells how it came to be. A great human drama emerges, of discovery and innovation, risk, the promise of riches, and the power of greed. Shah infuses recent twists in the story with equal drama, through chronicles of colorful modern-day characters — from the hundreds of Nigerian women who stormed a Chevron plant to a monomaniacal scientist for whom life is the pursuit of this earthblood and its elusive secret. Shah moves masterfully between scientific, economic, political, and social analysis, capturing the many sides of the indispensable mineral that we someday may have to find a way to live without. "In the decades it takes to bring up a child, parents face challenges that are both helped and hindered by the fact that they are living through a period of unprecedented digital innovation. Drawing on extensive research with diverse parents, this book reveals how digital technologies give personal and political parenting struggles a distinctive character, as parents determine how to forge new territory with little precedent, or support. The book reveals the pincer movement of parenting in late modernity. Parents are both more burdened with responsibilities and charged with respecting the agency of their child-leaving much to negotiate in today's "democratic" families. The book charts how parents now often enact authority and values through digital technologies-as "screen time," games, or social media become ways of both being together and setting boundaries. The authors show how digital technologies introduce both valued opportunities and new sources of risk. To light their way, parents comb through the hazy memories of their own childhoods and look toward varied imagined futures. This results in deeply diverse parenting in the present, as parents move between embracing, resisting, or balancing the role of technology in their own and their children's lives. This book moves beyond the panicky headlines to offer a deeply researched exploration of what it means to parent in a period of significant social and technological change. Drawing on qualitative and quantitative research in the United Kingdom, the book offers conclusions and insights relevant to parents, policymakers, educators, and researchers everywhere"-- This handbook presents contemporary research on public administration in Latin America. The first section explores the range of administrative systems in existence across the region. The second portion of the book discusses important topics such as public personnel management, accountability and policy coordination in Latin America. Tensions between Muslim communities and state institutions are endemic in many parts of the world. For decades successive colonial and independent governments in the Philippines have deployed educational policy as a tool to mitigate one such conflict between Muslims and Christians, a conflict which has claimed more than 100,000 lives since the 1970's. *Postcolonial Education and Islamic Identity in the Southern Philippines* offers a postcolonial critique of this century-long educational project in an effort to understand how educational policy has failed Muslim Filipinos and to seek insight from their experience into the potential and pitfalls of educational responses to ethnic and religious tensions.
