Love + Work Jun 17 2022 Love has been driven out of our workplaces. How do we get it back in? We're in the middle of an epidemic of stress and anxiety. A global pandemic has wreaked havoc on our lives. Average life expectancy in the United States is down. At work, less than 16 percent of us are fully engaged. In many high-

stress jobs, such as distribution centers, emergency room nursing, and teaching, incidences of PTSD are higher than for soldiers returning from war zones. We're getting something terribly wrong. We've designed the love out of our workplaces, and our schools too, so that they fail utterly to provide for or capitalize on one of our most basic human needs: our need for love. As Marcus Buckingham shows in this eye-opening, uplifting book, love is an energy, and like all forms of energy, it must flow. It demands expression—and that expression is "work." Whether in our professional accomplishments, our relationships, or our response to all the many slings and arrows of life, we know that none of this work will be our best unless it is made with love. There's no learning without love, no innovation, no service, no sustainable growth. Love and work are inextricable. Buckingham first starkly highlights the contours of our loveless work lives and explains how we got here. Next, he relates

how we all develop best in response to other human beings. What does a great work relationship look like when the other person is cued to your loves? What does a great team look like when each member is primed to be a mirror, an amplifier, of the loves of another? Finally, he shows how you can weave love back into the world of work as a force for good, how you can use your daily life routines to pinpoint your specific loves, and how you can make this a discipline for the rest of your life. Today, too often, love comes last at work, and we are living the painful consequences of this. *Love + Work* powerfully shows why love must come first—and how we can make this happen.

Flawed System/Flawed Self Dec 19 2019

Today 4.7 million Americans have been unemployed for more than six months. In France more than ten percent of the working population is without work. In Israel it's above seven percent. And in Greece and Spain, that number approaches thirty percent. Across the developed world, the experience of unemployment has become frighteningly common—and so are the seemingly endless tactics that job seekers employ in their quest for new work. *Flawed System/Flawed Self* delves beneath these

staggering numbers to explore the world of job searching and unemployment across class and nation. Through in-depth interviews and observations at job-search support organizations, Ofer Sharone reveals how different labor-market institutions give rise to job-search games like Israel's résumé-based "spec games"—which are focused on presenting one's skills to fit the job—and the "chemistry games" more common in the United States in which job seekers concentrate on presenting the person behind the résumé. By closely examining the specific day-to-day activities and strategies of searching for a job, Sharone develops a theory of the mechanisms that connect objective social structures and subjective experiences in this challenging environment and shows how these different structures can lead to very different experiences of unemployment.

Occupational Devotion: Finding Satisfaction and Fulfillment at Work Jun 24 2020 The idea of occupational devotion, or devotee work, was conceptualized and incorporated in the serious leisure perspective as one of the two serious pursuits. The other pursuit is serious leisure itself, with both forms being anchored in activities that are immensely appealing and

fulfilling. Despite such desirable qualities the serious pursuits constitute a minority of all work and leisure, these two domains being dominated by disagreeable work and hedonic casual leisure activities. The devotee occupations serve as full-time or part-time livelihoods for people fortunate enough to have found them. Such work has so far been observed to exist in four sectors of the economy: the liberal professions, consulting occupations, craft-like trades, and creativity-based small businesses. In ways set out in this book, devotee work roots in serious leisure, even while many participants in the latter have no desire to pursue the former.

Yoga Wisdom at Work Sep 20 2022 Yoga's Ancient Wisdom Can Transform Your Work Life Everyone knows that yoga helps reduce stress and increase the body's flexibility and strength. But the physical aspects barely scratch the

surface of yoga's transformative powers. The poses are only one part of a larger philosophy offering profound insights for confronting the complexities of daily life. Yoga can help you remain centered, compassionate, positive, and sane every hour of the day—especially those between nine and five. This unprecedented guide shows how practicing the full range of yogic concepts—the traditional “Eight Limbs of Yoga”—leads to a productive, creative, and energizing work environment and features examples from professions like law enforcement, teaching, banking, filmmaking, medicine, and many more. But beyond that, this book is an invitation to use all of yoga's teachings to cultivate the spark of the divine that dwells within each of us. “Filled with personal insights and stories that carry yoga into the world of daily decision making.... It is wonderful to see the foundations of practice brought to life in such a confident, sincere, and thoughtful way.” —Pandit Rajmani Tuganait, Chairman and

spiritual head of the Himalayan Institute “Maren and Jamie show that yoga is not just about poses—the practice is about creating the stillness of mind that will allow you do the work you were meant to do. Seriously, read this book!” —Russell Simmons, cofounder of Def Jam “The [Showkeirs] bring the deepest teachings of yoga alive by showing exactly how to bring our yoga—and our best selves—into the world.” —Judith Lasater, PhD, author of *Relax and Renew: Restful Yoga for Stressful Times* [The Work](#) Sep 08 2021 The acclaimed author of *The Other Wes Moore* continues his inspirational quest for a meaningful life and shares the powerful lessons—about self-discovery, service, and risk-taking—that led him to a new definition of success for our times. *The Work* is the story of how one young man traced a path through the world to find his life's purpose. Wes Moore graduated from a difficult childhood in the Bronx and Baltimore to an adult life that would find him at some of the most critical moments in our

recent history: as a combat officer in Afghanistan; a White House fellow in a time of wars abroad and disasters at home; and a Wall Street banker during the financial crisis. In this insightful book, Moore shares the lessons he learned from people he met along the way—from the brave Afghan translator who taught him to find his fight, to the resilient young students in Katrina-ravaged Mississippi who showed him the true meaning of grit, to his late grandfather, who taught him to find grace in service. Moore also tells the stories of other twenty-first-century change-makers who've inspired him in his search, from Daniel Lubetzky, the founder of KIND, to Esther Benjamin, a Sri Lankan immigrant who rose to help lead the Peace Corps. What their lives—and his own misadventures and moments of illumination—reveal is that our truest work happens when we serve others, at the intersection between our gifts and our broken world. That's where we find the work that lasts.

Encore Nov 22 2022 In one of the most significant social trends of the new century, and the biggest transformation of the American workforce since the women's movement, members of the baby boom generation are

inventing a new phase of work. Encore tells the stories of encore career pioneers who are not content, or affluent enough, to spend their next thirty years on a golf course. These men and women are moving beyond midlife careers yet refusing to phase out or fade away. As they search for a calling in the second half of life and focus on what matters most, these individuals stand to transform the nature of work in America. They also hold the potential to create a society that balances the joys and responsibilities of contribution across the generations—in other words, one that works better for all of us.

Marked Mar 22 2020 Nearly every job application asks it: have you ever been convicted of a crime? For the hundreds of thousands of young men leaving American prisons each year, their answer to that question may determine whether they can find work and begin rebuilding their lives. The product of an innovative field experiment, **Marked** gives us our first real

glimpse into the tremendous difficulties facing ex-offenders in the job market. Devah Pager matched up pairs of young men, randomly assigned them criminal records, then sent them on hundreds of real job searches throughout the city of Milwaukee. Her applicants were attractive, articulate, and capable—yet ex-offenders received less than half the callbacks of the equally qualified applicants without criminal backgrounds. Young black men, meanwhile, paid a particularly high price: those with clean records fared no better in their job searches than white men just out of prison. Such shocking barriers to legitimate work, Pager contends, are an important reason that many ex-prisoners soon find themselves back in the realm of poverty, underground employment, and crime that led them to prison in the first place. “Using scholarly research, field research in Milwaukee, and graphics, [Pager] shows that ex-offenders, white or black, stand a very poor chance of getting a legitimate job. . . . Both informative

and convincing.”—Library Journal “Marked is that rare book: a penetrating text that rings with moral concern couched in vivid prose—and one of the most useful sociological studies in years.”—Michael Eric Dyson
