Eager to please her father as a journalist, Connie has been dedicating herself to the biggest story of her career. When Mr. Winthrop gets word of a series of gas explosions, he sends Connie to cover the case. Forced to spend the night in a seedy motel, Connie is alarmed when several men try to break into her room. She doesn't know this is only the beginning. Very quickly Connie learns she cannot depend on her father to rescue her from the peril she finds herself in. When she meets the owner of the gas company as well as his son, she is left with a less than favorable impression. On her investigation, she finally meets a decent man who is willing to show her around. But will she be able to defend herself from the murderous thugs who continue to haunt her steps?

Follow the clues with Connie in Carolyn Williams's exciting novel, *Mystery in the Pines*. [The Importance of Being Earnest](#) Dec 17 2019 Over one hundred presentations from the thirty-fourth Charleston Library Conference (held November 5-8, 2014) are included in this annual proceedings volume. Major themes of the meeting included patron-driven acquisitions versus librarian-driven acquisitions; marketing library resources to faculty and students to increase use; measuring and demonstrating the library's role and impact in the retention of students and faculty; the desirability of textbook purchasing by the library; changes in workflows necessitated by the move to virtual collections; the importance of self-publishing and open access publishing as a collection strategy; the hybrid publisher and the hybrid author; the library's role in the collection of data, datasets, and data curation; and data-driven decision making. While the Charleston meeting remains a

core one for acquisitions, serials, and collection development librarians in dialog with publishers and vendors, the breadth of coverage of this volume reflects the fact that the Charleston Conference is now one of the major venues for leaders in the information community to shape strategy and prepare for the future. **Earth: The Operators' Manual** Nov 20 2022 The book—companion to a PBS series—that proves humans are causing global warming and offers a path to the future. Since the discovery of fire, humans have been energy users and always will be. And this is a good thing—our mastery of energy is what separates us from the rest of the animal kingdom and has allowed us to be the dominant species on the planet. However, this mastery comes with a price: we are changing our environment in a profoundly negative way by heating it up. Using one engaging story after another, coupled with accessible scientific facts, world authority Richard B. Alley explores the fascinating history of energy use by humans over the centuries, gives a doubt-destroying proof that already-high levels of carbon dioxide are causing damaging global

warming, and surveys the alternative energy options that are available to exploit right now. These new energy sources might well be the engines for economic growth in the twenty-first century.

**Larry Hama** Jul 24 2020 Larry Hama (b. 1949) is the writer and cartoonist who helped develop the 1980s G.I. Joe toy line and created a new generation of fans from the tie-in comic book. Through many interviews, this volume reveals that G.I. Joe is far from his greatest feat as an artist. At different points in his life and career, Hama was mentored by comics legends Bernard Krigstein, Wallace Wood, and Neal Adams. Though their impact left an impression on his work, Hama has created a unique brand of storytelling that crosses various media. For example, he devised the character Bucky O'Hare, a green rabbit in outer space that was made into a comic book, toy line, video game, and television cartoon—with each medium in mind. Hama also discusses his varied career, from working at Neal Adams and Dick Giordano's legendary *Continuity* to editing a humor magazine at Marvel,

developing G.I. Joe, and enjoying a long run as writer of Wolverine. This volume also explores Hama's life outside of comics. He is an activist in the Asian American community, a musician, and an actor in film and stage. He has also appeared in minor roles on the television shows M\*A\*S\*H and Saturday Night Live and on Broadway. Editor and historian Christopher Irving compiles six of his own interviews with Hama, some of which are unpublished, and compiled others that range through Hama's illustrious career. The first academic volume on the artist, this collection gives a snapshot of Hama's unique character-driven and visual approach to comics' storytelling.
