Pre-Schoolers with Autism Feb 28 2021 The title is an effective, manualized parent education programme' - Educational Book Review This ground-breaking training programme has been developed in response to a real need for evidence-based early interventions for very young autistic children. Authoritative and extensively tried and tested, it will help both parents and carers to understand the disorder and how it affects child development. Ultimately, the programme is designed to reduce the severity of emotional/behavioural difficulties by managing a child's particular problems and encouraging effective collaboration between professionals and parents. The programme is delivered through two accessible manuals - one for parents and one for clinicians - which provide all the information and materials you need. The Manual for Clinicians explains the purpose and content of each session and includes notes for discussion and teaching, a checklist of 'things to do', and photocopiable task sheets for distribution and discussion. The Manual for Parents features tasks, exercises and discussion points for group sessions, and complements these training materials with engaging personal accounts, an introduction to the history of autism, information about approaches to treatment, and a list of useful websites and further reading. Structured as a series of individual and small group sessions, the programme is designed to run for 20 weeks and covers key areas such as understanding and managing difficult behaviour; changing/encouraging new behaviours; communication problems in verbal and non-verbal children; social problems; and how to work and play together. Together, these manuals will provide you with all the information, support and resources you need to run this programme successfully.

Latin American Dendroecology Feb 11 2022 Latin America is a megadiverse territory hosting several hotspots of plant diversity and many types of forest biomes, ecosystems and climate types, from tropical rainforest to semi-arid woodlands. This combination of diverse forests and climates generates multiple responses to ecological changes affecting the structure and functioning of forest ecosystems. Recently, there have been major efforts to improve our understanding of such impacts on ecosystems processes. However, there is a dearth of studies focused on Latin-American forest ecosystems that could provide novel insights into the patterns and mechanisms of ecological processes in response to environmental stress. The abundance of "New World" tree species with dendrochronological potential constitutes an ideal opportunity to improve the ecological state of knowledge regarding these diverse forest types, which are often threatened by several impacts such as logging or conversion to agricultural lands. Thus, detailed information on the dendroecology of these species will improve our understanding of forests in the face of global change. Accordingly, this book identifies numerous relevant ecological processes and scales, ranging from tree

species to populations and communities, and from both dendrochronological and dendroecological perspectives. It offers a valuable reference guide for the exploration of long-term ecological interactions between trees and their environmental conditions, and will foster further research and international projects on the continent and elsewhere.

Forever Young Nov 20 2022 Iconic actress Hayley Mills shares personal memories from her storied childhood, growing up in a famous acting family and becoming a Disney child star, trying to grow up in a world that wanted her to stay forever young. The daughter of acclaimed British actor Sir John Mills was still a preteen when she began her acting career and was quickly thrust into the spotlight. Under the wing of Walt Disney himself, Hayley Mills was transformed into one of the biggest child starlets of the 1960s through her iconic roles in Pollyanna, The Parent Trap, and many more. She became one of only twelve actors in history to be bestowed with the Academy Juvenile Award, presented at the Oscars by its first recipient, Shirley Temple, and went on to win a number of awards including a Golden Globe, multiple BAFTAs, and a Disney Legacy Award. Now, in her charming and forthright memoir, she provides a unique window into when Hollywood was still 'Tinseltown' and the great Walt Disney was at his zenith, ruling over what was (at least in his own head) still a family business. This behind-the-scenes look at the drama of having a sky-rocketing career as a young teen in an esteemed acting family will offer both her childhood impressions of the wild and glamorous world she was swept into, and the wisdom and broader knowledge that time has given her. Hayley will delve intimately into her relationship with Walt Disney, as well as the emotional challenges of being bound to a wholesome, youthful public image as she grew into her later teen years, and how that impacted her and her choices--including marrying a producer over 30 years her senior when she was 20! With her regrets, her joys, her difficulties, and her triumphs, this is a compelling read for any fan of classic Disney films and an inside look at a piece of real Hollywood history.

[Before Middle Passage: Translated Portuguese Manuscripts of Atlantic Slave Trading from West Africa to Iberian Territories, 1513-26](#) May 14 2022 On the 20th of January 1526, the Santiago left Lisbon bound for Africa with a cargo of brass and tin bracelets, round bells, barber basins and cloth; by early October the ship was back in Portugal with a very different cargo, 108 enslaved Africans. With chilling detachment the ship's trading log records the commodification of human beings, the prices paid for them, the sums received for their sale and the number who did not survive the crossing. Whilst this log may be extremely rare, it is clear from another surviving document, the receipt book of the customs office of the Portuguese Cape Verde Islands, that such voyages were commonplace in the early years of the sixteenth century. The bulk of this volume consists of a translation into English of the receipt book from the customs office of the Cape Verde Islands. In it Portuguese customs agents recorded import duties on over 3,000 slaves transported from nearby West Africa in 36 ships. The customs officers named the slave traders, ships, officers, crew, and outfitters of the ships, as well as the price of each slave and the import duty collected by the Portuguese government and the Catholic Church. A second section of the customs book provides details of export taxes paid on c.600 African slaves by merchants from Portugal, Spain, and the Spanish Canary Islands, when they exchanged European merchandise for slaves. The final chapter of the volume translates the Santiago's log, providing an example of an actual slave trading expedition. Taken together these documents open a rare window into the workings and scope of the early Atlantic slave trade.

After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now

they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Cole Hagan has never stopped loving Eden and he's spent the last eight years proving her wrong on every count about his potential. While he fights to save the resort that he helped to build by organizing a holiday concert, he decides it's about time that Eden puts aside her list-making pragmatism so that she and her skeptical son can experience the true magic of Christmas. Reconstructing the Native South Apr 20 2020 In *Reconstructing the Native South*, Melanie Benson Taylor examines the diverse body of Native American literature in the contemporary U.S. South--literature written by the descendants of tribes who evaded Removal and have maintained ties with their southeastern homelands. In so doing Taylor

advances a provocative, even counterintuitive claim: that the U.S. South and its Native American survivors have far more in common than mere geographical proximity. Both cultures have long been haunted by separate histories of loss and nostalgia, Taylor contends, and the moments when those experiences converge in explicit and startling ways have yet to be investigated by scholars. These convergences often bear the scars of protracted colonial antagonism, appropriation, and segregation, and they share preoccupations with land, sovereignty, tradition, dispossession, subjugation, purity, and violence. Taylor poses difficult questions in this work. In the aftermath of Removal and colonial devastation, what remains--for Native and non-Native southerners--to be recovered? Is it acceptable to identify an Indian "lost cause"? Is a deep sense of hybridity and intercultural affiliation the only coherent way forward, both for the New South and for its oldest inhabitants? And in these newly entangled, postcolonial environments, has global capitalism emerged as the new enemy for the twenty-first century? *Reconstructing the Native South* is a compellingly original work that contributes to conversations in Native American, southern, and transnational American studies.

El Patólogo. Parte I: Memento Mori Jan 30 2021 A los doce años, Nicholas Goering sobrevivió milagrosamente a un disparo en la cabeza perpetrado por su propio padre, después de que este matara a su madre y se suicidara sin motivo aparente. Veinticinco años más tarde, ahora convertido en un referente de la Patología Forense en el prestigioso hospital de la ciudad sajona de Heimsstadt, el misántropo doctor tendrá que lidiar con el caso más extraño de su carrera: el cuerpo de su padre ha aparecido en perfecto estado de conservación colgado como en el día de su muerte y le han colocado los órganos internos de distintas personas. El recientemente ascendido y temperamental detective Matías Vandergelb, quien desprecia al patólogo, y la ambiciosa psiquiatra Angélica Grunnewald, quien, por el contrario, está obsesionada con él, serán los encargados de intentar resolver el rompecabezas humano en una carrera contrarreloj. Memento Mori es la primera entrega de la trilogía.

Of Gods and Monsters Oct 27 2020 While Universal's Dracula and Frankenstein (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with The Last Warning, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows. Filmographic data for the film conclude the entry. Universal's The Shadow short film series is covered in an appendix. Many rare illustrations and movie posters are also included.

Refurbishment Manual Aug 25 2020 Planning tasks involving existing structures are currently among the most common types of contract, and almost every structure makes different demands and raises individual problems. Reflecting this state of affairs, there are a dizzying number of publications on the market, most of which are quite specialized. The Refurbishment Manual cuts through this jungle of publications. It defines terms and concepts, combines the narrowly focused perspectives of the specialists, and offers concrete approaches to this wide-ranging topic. The Refurbishment Manual closes the gap between basic constructional literature and one-sided, highly specialized technical literature. It constitutes a practical planning aid on the subject of refurbishment, providing a basic introduction to the relevant aspects of building physics, fire protection, sustainability and energy, hazardous materials, construction materials for interior and façade, historic preservation, and technical building equipment. It offers concrete tips on planning steps, methods of building analysis, and cost benchmarks, as well as clear constructional solutions with built projects as examples. A unique feature of the volume is the specially developed timeline, which allows the planner to quickly grasp, categorize, and evaluate a concrete building task and thus obtain an efficient planning overview. Planungsaufgaben im Bestand gehören derzeit zu den häufigsten Auftragsarten und nahezu jedes Bauwerk stellt andere Anforderungen und weist individuelle Probleme auf. Analog dazu gibt es auf dem Markt eine fast unüberschaubare Anzahl Publikationen in meist sehr spezialisierter Form. Der Sanierungsatlas möchte Licht in diesen Publikationsdschungel bringen: Er definiert Begrifflichkeiten, vereint die fokussierenden Betrachtungsweisen der Fachleute und vermittelt konkrete Herangehensweisen an diese weit gefächerte Thematik. Der Sanierungsatlas schließt die Lücke zwischen grundlegender Baukonstruktions- und sehr einseitig spezialisierter Fachliteratur. Das Buch stellt eine praktische Planungshilfe zum Thema Sanierung dar -

und zwar in Form von relevanter Grundlagenvermittlung zu Bauphysik, Brandschutz, Nachhaltigkeits- und energetischen Aspekten, Schadstoffen, Baustoffen im Innenraum und an der Fassade, zu Aspekten der Denkmalpflege ebenso wie zur technischen Gebäudeausstattung. Er liefert konkrete Hinweise zu Planungsschritten, Methoden der Bauanalyse und Kostenkennwerten sowie anschauliche Konstruktionslösungen am Beispiel gebauter Projekte. Einzigartig ist die speziell entwickelte Zeitschiene, mit deren Hilfe eine konkrete Bauaufgabe schnell erfasst, kategorisiert und bewertet werden kann - und die dem Planer somit einen effizienten Planungsüberblick verschafft.

To My Arrogant Boss Dec 29 2020 To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, Your Secret Not Admirer
