The Gospel According to Mark May 03 2021 The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

Earthquakes and Eschatology in the Gospel According to Matthew Dec 18 2019 In this study, Brian Carrier provides a comprehensive analysis of the role that seismic language plays within the Matthean Gospel narrative. After reconstructing what connotations seismic language likely carried in Matthew's cultural context, the author utilizes an historically informed author-oriented narrative criticism that is complemented with redaction criticism to analyze the relationships that Matthew's seismic references display with regards to each other and to the

overall narrative. This analysis leads to the conclusion that Matthew's seismic references collectively indicate that the life, death, and resurrection of Jesus together represent the partial fulfillment of the Old Testament eschatological Day of the Lord.

The Controversy Stories in the Gospel of Matthew
Oct 08 2021 English summary: This book presents the first comprehensive study of the Matthean controversy stories. The study draws the conclusion that they are motivated by the continuing mission to Israel and by the attempt to delegitimize Pharisaic leadership within formative Judaism. German description: Mit diesem Buch wird die erste ausführliche Studie zu den Streitgesprächen des Matthäus-Evangeliums vorgelegt. Diese Streitgespräche zwischen Jesus und den Pharisäern werden zum Testfall für die neuerdings vertretene Hypothese, dass es sich bei der Gemeinde, für die das Evangelium verfasst wurde, um eine Sekte innerhalb des Judentums handle. Durch redaktionsgeschichtliche Analysen wird herausgearbeitet, dass die Streitgespräche als innerjüdische Auseinandersetzungen verstanden sind. Ein zweiter Teil weist mittels formkritischer Untersuchungen nach, dass die Streitgespräche sowohl mit den Chreia als auch mit den Agones der hellenistisch-antiken Literatur verwandt sind. Als These und Fazit ergibt sich, dass die Streitgespräche des Matthäus-Evangeliums durch die fortgesetzte Mission der Gemeinde in Israel motiviert sind.

Dem religiösen Führungsanspruch, den pharisäische Kreise nach der Zerstörung Jerusalems (70 n. Chr.) erhoben, sprechen sie zugleich die Legitimation ab.

A Storm of Spears Apr 02 2021 The backbone of classical Greek armies was the phalanx of heavily armored spearmen, or hoplites. These were the soldiers that defied the might of Persia at Marathon, Thermopylae, and Plataea and, more often, fought each other in the countless battles of the Greek city-states. For around two centuries they were the dominant soldiers of the Classical world, in great demand as mercenaries throughout the Mediterranean and Middle East. Yet, despite the battle descriptions of Herodotus, Thucydides, Xenophon, etc, and copious evidence of Greek art and archaeology, there are still many aspects of hoplite warfare that are little understood or the subject of fierce academic debate. Christopher Matthew's groundbreaking reassessment combines rigorous analysis of the literary and archaeological evidence with the new disciplines of reconstructive archaeology, reenactment, and ballistic science. He focuses meticulously on the details of the equipment, tactics, and capabilities of the individual hoplites. In so doing he challenges some long-established assumptions. For example, despite a couple of centuries of study of the hoplites portrayed in Greek vase paintings, Matthew manages to glean from them some startlingly fresh insights into

how hoplites wielded their spears. These findings are supported by practical testing with his own replica hoplite panoply and the experiences of a group of dedicated reenactors. He also tackles such questions as the protective properties of hoplite shields and armor and the much-vexed debate on the exact nature of the 'othismos', the climax of phalanx-on-phalanx clashes. This is an innovative and refreshing reassessment of one of the most important kinds of troops in ancient warfare, sure to make a genuine contribution to the state of knowledge.

Throughout, readers get a tutorial on the basics of weather science and the impact of the climate. As our country's leaders sound the alarm on climate change, few people have as close a view to how serious the situation actually is than those whose job is to follow the weather, which is the daily dose of climate we interact with and experience every day. The weather affects every aspect of our lives (even our art) as well as our future. The way we think about it requires a whole-life overhaul. Rain or shine, tropical storm or twister, Cappucci is here to help us begin the process. So get in his storm-chasing truck already, will ya?

Sacra Pagina: The Gospel of Matthew Nov 28 2020
Matthew wrote his Gospel from his perspective as a Jew. It is with sensitivity to this perspective that Father Harrington undertakes this commentary on the Gospel of Matthew. After an introduction, he provides a literal translation of each section in Matthew's Gospel and explains the textual

problems, philological difficulties, and other matters in the notes. He then presents a literary analysis of each text (content, form, use of sources, structure), examines the text against its Jewish background, situates it in the context of Matthew's debate with other first-century Jews, and reflects on its significance for Christian theology and Christian-Jewish relations. Bibliographies direct the reader to other important modern studies.

The Gospel of Matthew Dec 30 2020

The Torah in Matthew Aug 06 2021 Jesus' relation to the Torah forms a significant motif in Matthew's Gospel. This relation is taken up as an important theme in the Sermon on the Mount with its strong Sinai typology, and disputes about the Torah are repeated throughout the Gospel. Jesus is depicted as the last and greatest expositor of the Torah. When reading this Gospel, the central role of the Torah must be seriously considered.

This present study is furthermore relevant in the light of new insights that have developed in recent years on the diversity and dynamics within the Judaism that confronted Matthew. This diversity within Judaism is usually related to Judaist attitudes towards the Torah. To complicate this, oral traditions were strong and lively. Questions arose about the status of the written Scriptures and oral traditions and the authority ascribed to these. The Matthean community developed within this turmoil of developing Judaism.

Matthew's Narrative Web Jun 23 2020 The Gospel of Matthew contains many repeated phrases and double stories. Scholars have usually used this as evidence to support various source theories. Taking a different approach, this book uses narrative and reader-response criticisms to explore the role verbal repetition plays in the rhetoric, characterization, and plot of the Gospel. The importance of variation, context, and the temporal dimension of narrative is highlighted. A concluding chapter treats two literary studies of repetition in modern narrative and the relation of narrative and reader-response criticisms to aural reception of the Gospels in the first century.

Matthew's Bible Jul 05 2021 What type of Old Testament text did Matthew use as editor of his Gospel? On the one hand, the editorially inserted fulfilment quotations with their peculiar textual form may be expected to represent Matthew's biblical text. On the other hand, the remaining OT quotations are mainly Septuagintal, and it is often assumed that Matthew reinforced the Septuagintal character of the quotations which he found in his sources. In the first part of this study, the fulfilment quotations are examined. Their textual form is best explained as a

Septuagint text that was revised to make it better agree with the Hebrew and to improve the quality of its Greek; the evangelist took these quotations from a continuous text. In the second part, Matthew's remaining OT quotations are investigated. If Matthew borrows quotations from his sources, he does not adjust them to the LXX but he simply copies them or edits them in his usual way; if he inserts quotations into his sources, he makes use of his revised Septuagint. On the whole, this revised Septuagint seems to have been "Matthew's Bible".

What Kind of Man is This?: Even the Winds and the Waves Obey Him! Mar 21 2020 Suddenly, a furious storm came up on the lake, so that the waves swept over the boat. But Jesus was sleeping. The disciples went and woke Him, saying, "Lord, save us! We're going to drown!" He replied, "You of little faith why are you so afraid?" Then He got up and rebuked the winds and waves, and it was completely calm. The men were amazed and asked "What kind of man is this? Even the winds and waves obey Him!" Matthew 8:24-27 (NIV) Often, we can find ourselves lost in the wonder of what God is capable of. But, we can also at times lose track of what it means to be

children of God. Many believe that if you walk with the Lord that you should not face trials, but this is not true; rather, you walk with the Lord through the trials. He can calm the raging storm in an instant, but sometimes we must face it with Him. In her book, *What Kind of Man Is This?*, author Nkechi Chinedum Uwaga shares a glimpse into her loving relationship with her Savior Jesus Christ. EastCare Spatial Analysis of Air Medical Response During Hurricane Matthew in Eastern North Carolina Oct 16 2019 Changes in medical cases prior to, during and after Hurricane Matthew are spatially analyzed using data from emergency transport provided by the East Care Emergency Medicine group. IRB clearance has been received to analyze emergency medical service (EMS) data gathered by the East Care. Coordinate points delivered from East Care show the locations where EMS traveled to during a two-week period prior to, during the duration (Oct 8th-Oct 9th) and two-week period after Hurricane Matthew. These data have coordinates of a particular hospital supported by East Care and will show which air craft response attended to the call. Each call has the following data associated with them: the location of pick-up; the exact time the call; response time; patient zip code; and the type of medical issue. Descriptive and frequency statistics are used to examine differences number of calls, location of calls, types of responses, and types of medical issues vary between the three time periods. Trend surface analyses will be used to map generated from trend surface analyses show differences in the spatial patterns associated with the hurricane compared to the year prior to and after the hurricane (both years with no hurricanes in the area). The results show the 2016 magnitude

of calls was significantly higher. Medical calls were also the highest call during 2016 for the 3-day, 7-day, 15-day, and 30-day period. Patients in the age range of 65 and up were transported the most by air support. A significant hotspot of air pickups in 2016 is identified in the counties between the Tar and Pamlico Rivers for a full 30 days to only 15 days, 7-days, and 3-days after the storm and this hotspot differs from those identified in non-hurricane years. Referring hospitals pickups also differ in the storm and non-storm periods as after the hurricane there are more pickups in hospitals close to the Outer Banks. The findings indicate the a distinct geographic change in the location of air pick-ups during a storm period, the older adults and young children/babies are more impacted than other age populations across all time-periods of investigation. However, there is a general increase in the various types of calls regardless of age within the 3-day to 7-day time-period. Hospitals close to the location of the landfall had the highest incidence of pick-up calls compared with the non-hurricane periods investigated.

The Christbook Aug 26 2020

Isaac's Storm Oct 20 2022 At the dawn of the twentieth century, a great confidence suffused America. Isaac Cline was one of the era's new men, a scientist who believed he knew all there was to know about the motion of clouds and the behavior of storms. The idea that a hurricane could damage the city of Galveston, Texas, where he was based, was to him preposterous, "an absurd delusion." It was 1900, a year when America felt bigger and stronger than ever before. Nothing in nature could hobble the gleaming city of Galveston, then a magical place that seemed destined to become the New York of the Gulf. That August, a strange, prolonged heat wave gripped

the nation and killed scores of people in New York and Chicago. Odd things seemed to happen everywhere: A plague of crickets engulfed Waco. The Bering Glacier began to shrink. Rain fell on Galveston with greater intensity than anyone could remember. Far away, in Africa, immense thunderstorms blossomed over the city of Dakar, and great currents of wind converged. A wave of atmospheric turbulence slipped from the coast of western Africa. Most such waves faded quickly. This one did not. In Cuba, America's overconfidence was made all too obvious by the Weather Bureau's obsession with controlling hurricane forecasts, even though Cuba's indigenous weathermen had pioneered hurricane science. As the bureau's forecasters assured the nation that all was calm in the Caribbean, Cuba's own weathermen fretted about ominous signs in the sky. A curious stillness gripped Antigua. Only a few unlucky sea captains discovered that the storm had achieved an intensity no man alive had ever experienced. In Galveston, reassured by Cline's belief that no hurricane could seriously damage the city, there was celebration. Children played in the rising water. Hundreds of people gathered at the beach to marvel at the fantastically tall waves and gorgeous pink sky, until the surf began ripping the city's beloved beachfront apart. Within the next few hours Galveston would endure a hurricane that to this day remains the nation's deadliest natural disaster. In Galveston alone at least 6,000

people, possibly as many as 10,000, would lose their lives, a number far greater than the combined death toll of the Johnstown Flood and 1906 San Francisco Earthquake. And Isaac Cline would experience his own unbearable loss. Meticulously researched and vividly written, *Isaac's Storm* is based on Cline's own letters, telegrams, and reports, the testimony of scores of survivors, and our latest understanding of the hows and whys of great storms. Ultimately, however, it is the story of what can happen when human arrogance meets nature's last great uncontrollable force. As such, *Isaac's Storm* carries a warning for our time.

Pass' -- The End Time in the Book of Revelation -- The Population Explosion and Prophecy -- God's Framework for End-Time Prophecy -- Preparing for the End Time -- What Can You Do? Inside this Bible Study Aid ebook: "But we should remember that Jesus made it clear that no one could know the exact time of His return: "... Of that day and hour no one knows, not even the angels of heaven, but My Father only" (Matthew 24:36)." "Some think the subject of the end time in the Bible is mainly confined to the New Testament. But beginning in Genesis, the first book of the Bible, the Scriptures look beyond our present evil age to the time of the establishing of God's Kingdom. Old Testament scriptures have much to say about events that take place during the end of this age and the following "world to come."" "When Scripture mentions "the time of the end" or "the end of the age," it is referring to the coming end of the present evil age. This age—in reality the age of Satan—will draw to an end, replaced by the age of God's rule over and guidance of all of humanity." "Revelation is a book written to reveal the future, and Jesus Christ is the One who does the revealing...Here is the theme of Revelation—the time of the end of the age and the return of Jesus Christ to establish God's Kingdom on earth." "How should we view prophecy? Can it provide spiritual benefits? The apostle Peter mentioned that prophecy should serve to strengthen our hope and faith in the future (2 Peter 1:19)."

But it quickly dives into real-world case studies that will bring the novice up to speed with productionizing Storm. About the Technology It's hard to make sense out of data when it's coming at you fast. Like Hadoop, Storm processes large amounts of data but it does it reliably and in real time, guaranteeing that every message will be processed. Storm allows you to scale with your data as it grows, making it an excellent platform to solve your big data problems. About the Book Storm Applied is an example-driven guide to processing and analyzing real-time data streams.

This immediately useful book starts by teaching you how to design Storm solutions the right way. Then, it quickly dives into real-world case studies that show you how to scale a high-throughput stream processor, ensure smooth operation within a production cluster, and more. Along the way, you'll learn to use Trident for stateful stream processing, along with other tools from the Storm ecosystem. This book moves through the basics quickly. While prior experience with Storm is not assumed, some experience with big data and real-time systems is helpful. Where can he find the strength to survive the storms of nature and the storms of life?

Matthew Arnold's *The Church of Brou* - a Closer Look Feb 12 2022 Matthew Arnold's poem, *The Church of Brou*, is no *Kubla Khan*. Relatively unimportant as poetry and with a curiously muffled message, it has received little critical attention. This book identifies and explains its underlying symbolism, and establishes its very great importance in Arnold's inner progress.
