**Catalog of British Motorcycles** Aug 07 2021 84 pages, 83 black & white illustrations, size 8.25 x 11 inches. Published in the USA under the same title in 1951 by Floyd Clymer, the original publication was a pocket sized landscape format book and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide.
