The aim of this book with its detailed step-by-step colour photographs and diagrams, is to enable every owner to fix their outboard motor with ease. Troubleshooting tables help diagnose potential problems, and there is advice on regular maintenance and winterising and repair. Jean-Luc Pallas's enthusiasm for passing on his knowledge, as well as his clear explanations, precise advice and step-by-step instructions make this a unique book. For many people, even within the theatre industry, prop

making is something of a 'dark art', practised by gifted individuals who manage to produce intricate works battling against short deadlines. However, the skills of prop making are relevant to many industries and contexts, whether for art projects, carnival floats, live action role-play (LARP), model railways or film and television. The options and applications are endless, but the traditional skills remain the same. The Prop Maker's Workshop Manual is a definitive guide to the materials and practices used within the professional performing arts industries, covering both traditional techniques and modern practices. Supported by original hand-drawn illustrations and over 300 colour photographs, topics covered include: paper

mache and card construction; flexible canes and withies; timber and steel frameworks; sculpting, moulding and casting processes; texture and paint techniques; GRP and epoxy resins; thermoformable plastics, including Plastazote and Wonderflex and finally, an introduction to life casting. This 1967 Pontiac Firebird Service Manual Supplement to 1967 Pontiac Shop Manual is a high-quality, licensed PRINT reproduction of the service manual authored by General Motors Corporation and published by Detroit Iron. This OEM factory manual is 8.5 x 11 inches, paperback bound, shrink-wrapped and contains 136 pages of comprehensive mechanical instructions with detailed diagrams, photos and specifications for the mechanical components of your vehicle
