How to Professionally Clean

Your VCR May 13 2022 With

over 50 million VCRs in

American homes anyone

interested in saving money &

time on VCR maintenance should have this manual. Dust, oil, particles of tape, among other things, could result in VCR malfunctions causing poor picture & sound, problems in rewinding or fast-forwarding, tape damage, & many other problems that can be avoided with regular cleaning & lubrication. In fact, if a VCR already has these symptoms, a good cleaning might just solve these problems. Dry cleaning tapes are like running sandpaper through a VCR, while wet-type cleaning tapes, if used improperly, could ruin a VCR, besides, most manufacturers recommend against them. In 30 minutes by using this manual, a VCR

owner can professionally service their machine saving from \$20 to \$50 that a repair shop charges, plus a one to five week wait to get their machine out of the shop. Step by step procedures, detailed photographs, where to buy the materials needed, plus a help-line telephone number are included in this manual. This manual will save the VCR owner hundreds of dollars over the life of the machine & increase the quality of operation. Bradley VCR Clinic. 335 S. Center Ave., Bradley, IL 60915. Telephone: (815) 935-0425 or (800) 772-2827. *Popular Photography* May 21 2020
