Covering the legendary Lofoten and Dieppe raids, the D-Day landings and the capture of Flushing, James Dunning recounts the history of No. 4 Commando, an elite wartime special service unit, from formation in 1940 to disbandment five years later. The author, himself, a 'Fighting Fourth' veteran, describes how 500 volunteers, despite initial problems, prejudices and frustrations, developed into one of the most feared fighting formations of the Second World War. The extraordinarily tough and unorthodox training undertaken by No. 4 Commando prepared them for the raids of 1941 and 1942, their protracted involvement on D-Day and for 83 days' action in the struggle for Normandy. Their last major operation was the storming and capture of the vital port of Flushing in November 1944. This readable and authoritative history of the unit reveals their important role in the Second World War. Discover the dangerous, futuristic world of the #1 New York Times bestselling Hunter series from legendary fantasy author Mercedes Lackey. They came after the Diseray. Monsters. Long ago, the barriers between our world and the Otherworld were ripped open, and it's taken centuries to bring back civilization in the wake of the catastrophe. Now, the luckiest Cits live in enclosed communities, behind walls that keep them safe from the hideous creatures fighting to break through. Others are not so lucky. In Hunter, Joyeaux Charmand believes that every Cit without magic deserves her protection from dangerous Othersiders. Then she is called to Apex City, where the best Hunters are kept to protect the most important people. Joy soon realizes that the city's powerful leaders care more about luring Cits into a false sense of security than protecting them. More and more monsters are getting through the barriers, and the close calls are becoming too frequent to ignore. And when an act of sabotage against Joy takes an unbearable toll, she uncovers a terrifying conspiracy in the city. There is something much worse than the usual monsters infiltrating Apex. And it may be too late to stop them... In Elite, Joy knows she'll be facing more dangerous Othersiders than ever before as a new member of the Elite Hunter unit. But if anyone is up to the challenge, it's her. Then the rules change. Monsters unlike any Joy's ever seen or even heard of are breaking through Apex City's barriers, and the Hunters are scrambling to find new ways to fight them—all the while hiding the true danger Apex faces from the Cits, who are ignorant of the severity of the Othersiders' attacks. The leaders of Apex must come together to protect the city, but tensions have never been higher between the Hunters and the powerful PsiCorps, with each group competing to be the primary protector of the city. The conflict escalates even further when Joy starts discovering bodies of Psimons while patrolling the city sewers on a special assignment from her uncle, who commands the Hunters. A storm is approaching Apex City, and unless Joy and her fellow Hunters put up the fight of their lives, it might just sweep them all away... In Apex, the riveting conclusion to the Hunter trilogy, Joy must risk everything to end a brutal war before she loses all she's ever loved. The corrupt and powerful PsiCorps is determined to usurp the Hunters as chief defenders of Apex City and Joy is squarely in their crosshairs. Unused to playing political games, she has few people she can truly trust—not even Josh, her first friend in Apex City, who broke up with her when it became too dangerous for a Psimon to be dating a Hunter. Then Josh comes to Joy for help. He fears that Abigail Drift, the head of PsiCorps, will use him in her experiments designed to empower PsiCorps and render Hunters superfluous—a scheme that's already killed dozens of Psimons. Joy manages to smuggle Josh to safety, but he can't evade Drift forever. As Joy faces ever more powerful Othersiders, she is helped by the most surprising ally imaginable -- the same Folk Mage she once met in battle. But can Joy trust the most cunning and treacherous of all Othersiders? NEW YORK TIMES BESTSELLER • The unapologetic, laugh-your-ass-off military memoir both vets and civilians have been waiting for, from a five-tour Army Ranger turned YouTube phenomenon and zealous advocate for veterans Members of the military's special operations branches share a closely guarded secret: They love their jobs. They relish the opportunity to fight. They are thankful for it, even, and hopeful that maybe, possibly, they'll also get to kill a bunch of bad guys while they're at it. You don't necessarily need to thank them for their service—the pleasure is all theirs. In this hilarious and personal memoir, readers ride shotgun alongside former Army Ranger and private military contractor and current social media phenomenon Mat Best, into the action and its aftermath, both abroad and at home. From surviving a skin infection in the swampy armpit of America (aka Columbus, Georgia) to kicking down doors on the outskirts of Ramadi, from blowing up a truck full of enemy combatants to witnessing the effects of a suicide bombing right in front of your face, Thank You for My Service gives readers who love America and love the good guys fresh insight into what it's really like inside the minds of the men and women on the front lines. It's also a sobering yet steadying glimpse at life for veterans after the fighting stops, when the enemy becomes self-doubt or despair and you begin to wonder why anyone should be thanking you for anything, least of all your service. How do you keep going when something you love turns you into somebody you hate? For veterans and their friends and families, Thank You for My Service will offer comfort, in the form of a million laughs, and counsel, as a blueprint for what to do after the war ends and the real fight begins. And for civilians, this is the insider account of military life you won't find anywhere else, told with equal amounts of heart and balls. It's Deadpool meets Captain America, except one went to business school and one went to therapy, and it's anyone's guess which is which. First used in combat during the Punitive Expedition into Mexico and then extensively during the world wars, the Colt Government Model (1911) pistol remained the standard issue handgun in the US armed forces for nearly 80 years and has continued in service with some units to this day. In fact, the M1911 has seen a resurgence amongst US Special Operations units as US Marine MARSOC and MEUSOC personnel are issued current generation 1911-type pistols. In addition the pistol has seen service with famous law enforcement agencies such as the Shanghai Municipal Police, LAPD Swat and Texas Rangers. Nearly a century after its introduction, the M1911 pistol remains a popular design and is now produced by virtually every major firearms manufacturer doing business in the USA. The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm.. Evan Marshall and Ed Sanow rocked the firearms world with the release of Handgun Stopping Power and Street Stoppers. Both books predicted the effectiveness of all types of ammunition by studying the results of real-life shootings rather than relying on laboratory tests that ignored the dynamics of an actual gunfight. This third book in the series provides the very latest street results of all the major handgun calibers, from .22 LR to .45 ACP, as well as popular rifle and shotgun loads. It also contains chapters on short-barrel ballistics, the emergence of the hot new .357 SIG caliber, the continued success of the .40 S&W, the development of the latest exotic ammo, the effectiveness of black powder firearms and a brand-new ammo test protocol based on the results of the many gunfights of U.S. Border Patrol officers.
