“If you only read one book in your life, it probably shouldn’t be this one. However, if you’re not operating an inexplicable one-book policy, these stories are funny, touching, and more than worth your time.” — John Oliver “Josh Gondelman is one of the most original hilarious voices out there today. This book will hook you and make you laugh and laugh.” — Amy Schumer Emmy-Award winning writer and comedian Josh Gondelman’s collection of personal stories of best intentions and mixed results. Josh Gondelman knows a thing or two about trying—and failing. The Emmy Award-winning stand-up comic—dubbed a “pathological sweetheart” by the New York Observer—is known throughout the industry as one of comedy’s true “nice guys.” Not surprisingly, he’s endured his share of last-place finishes. But he keeps on bouncing back. In this collection of hilarious and poignant essays (including his acclaimed New York Times piece “What if I Bombed at My Own Wedding?”), Josh celebrates a life of good intentions—and mixed results. His true tales of romantic calamities, professional misfortunes, and eventual triumphs reinforce the notion: we get out of the world what we put into it. Whether he’s adopting a dog from a suspicious stranger, mitigating a disastrous road trip, or trying MDMA for the first (and only) time, Josh only wants the best for everyone—even as his attempts to do the right thing occasionally implode. Full of the warm and relatable humor that’s made him a favorite on the comedy club circuit, Nice Try solidifies Josh Gondelman’s reputation as not just a good guy, but a skilled observer of the human condition. This book reviews my recent studies conducted on computer networks with a systematic approach. The research discussions include studies of field of view, introduction to technology, spin-off network, development and evaluation of technology, network topology, and wireless networks. The purpose of this book is to draw a concrete perspective of applicable designs in networking industry and alternative approaches. Hence principles and techniques of applied designs of a home network and an organization including necessary network designs, programming languages, transmission medium, and essential hardware and software are debated. Thoroughly updated and expanded, Fundamentals of Medium/Heavy Diesel Engines, Second Edition offers comprehensive coverage of basic concepts and fundamentals, building up to advanced instruction on the latest technology coming to market for medium- and heavy-duty diesel engine systems. "I've said 90% of the things on Sh*t Girls Say." -Every Girl Ever "It's the new best thing. It may be our new favorite thing." —Perez Hilton "In the age of quinoa gluten-free iced coffee sashimi hot yoga, thank God we have the 'girls' to keep sh*t real. But don't tell them I said that. They'll just totally pretend they said it. They're so jealous of me." —Stacy London, What Not to Wear "This book on my bedside table makes me look like a reader." —Ali Adler, cocreator of Glee "As a girl who says a lot of sh*t, I can honestly say I die for this book." —Abby Elliott, Saturday Night Live cast member Read Excerpt Experience cinematic sound in one powerful and compact device. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Information-rich topics and texts immerse adult learners in themes and issues from around the world so that English is more relevant. The way far too many people at far too many companies think about and execute marketing was born in an era when suppliers-the companies generating products and services-were in the catbird seat. That world is long dead, and customers now occupy that position. In this relentlessly globalizing economy, we live in a world of oversupply and underdemand, with too many suppliers chasing too few customers, offering more goods and services than the market can absorb. Noel Capon set out to discover what differentiates people who know how to succeed in this changed world-people who are able to create customers for the products and services of their business. The Marketing Mavens is based on a four-year-long research program that spanned twenty-five industries, identifying long-term winners and what they do differently. Put simply, Marketing Mavens place customers at the center of their business and make marketing everyone’s job. Using a wide variety of intriguing, in-depth examples, from ESPN to the Mayo Clinic, Dr. Capon shows how the mavens create customers. How by placing the sports fan at the center of its business, ESPN creates programming that meets the needs of fans that were never given a second thought by the networks; or how physicians at the Mayo Clinic, being both technical experts and skilled at creating a patient-centric ambience, motivate people to pay the extra travel and lodging expenses not covered by insurance. Marketing Mavens, though a rare breed, can be found up and down an organization-from the CEO to chief marketing officers to business unit managers. Noel Capon has talked to mavens from across the global economy and brings forth their uncanny insights behind the five imperatives of the true Marketing Maven: • Picking markets that matter • Selecting segments to dominate and finding the sweet spot in that segment • Designing the offer to create customer value and secure differential advantage • Integrating to serve the customer • And measuring what matters Noel Capon in The Marketing Mavens redefines marketing, moving it from a focus on selling and communication into a discipline that guides all the key decisions of a business. By seeing marketing as everyone’s business-not the domain of a few specialists-you’ll get your business in step with the way the world really works . . . and start creating customers. Next year’s profits don’t depend on next year’s numbers but on next year’s customers. The Marketing Mavens points the way to those customers, profits, and an increased stock price. If you're looking for better understanding of your E36 BMW, look no further! See and learn how to perform routine maintenance procedures with the highest level of clarity and comprehensiveness. This in-depth manual provides maintenance procedures for everything from brake fluid changes to resetting the service indicator. Covers M3, 318i, 323i, 325i, 328i, sedan, coupe and convertible models 1992-98. The first edition of this book was written six years ago. Since then, there have been some significant developments in the area of car audio (and video). In addition, many of the products featured in the first edition are now obsolete. While the first edition of the book continues to sell, we have seen a bit of a slow-down at major accounts. This edition promises to be even more successful than the last. Car Stereo Cookbook, 2e is a completely revamped edition of a hugely successful title that continues to sell. This revised book will include new information on mobile video, satellite radio, mp3, wma, digital broadcast radio, and will eliminate the out-of-date products that are no longer pertinent. This review of the most up-to-date observational and theoretical information concerning the chemical evolution of the Milky Way compares the abundances derived from field stars and clusters, giving information on the abundances and dynamics of gas. Well-connected and boasting impeccable comedy creds, Josh Gondelman and Joe Berkowitz have teamed up to dissect a range of embarrassing social blunders. Breaking down the dos and don'ts of modern culture, they muse upon getting uncontrollably drunk at a family BBQ, leaving passive-aggressive Post-its on a roommate's belongings, and drunk-tweeting before waking up to suffer the consequences. Merciless and irreverent, You Blew It! will keep readers in stitches as they show how making a fool of yourself is an inevitable part of life.

The Language of Coaching examines how instruction, feedback, and cueing can have a significant impact on training and performance outcomes. The book offers a comprehensive collection of cueing frameworks to help coaches better communicate with athletes in any sport. At over 900,000 cars produced - and counting - the Mazda MX-5 holds the Guinness World Record as the best-selling two-seater sports car ever produced. Tourism is that area of activity of contemporary man that touches on various fields of human interest. Representatives of numerous academic disciplines find it intriguing for its exceptionally interdisciplinary character. Conditions for and consequences of the development of tourism are investigated, among others, by economists, geographers, sociologists, experts in culture, anthropologists, management and social policy specialists and even by representatives of some natural sciences. Researchers dealing with tourism need to meet strict methodological requirements, but they get access to a very interesting subject of scientific inquiry, which combines social, cultural, economic and environmental aspects to create an ontologically new quality offering epistemological challenges.
