Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily

life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set. "Para mí es un trámite que tengo que pasar. Solo tengo que mirar a los ojos a ese hijo puta y decir que mató a mi mujer. Claro que me gustaría que se pudriera en la cárcel, pero los dos sabemos que dentro de unos años estará fuera, libre como un pajarito. Así es la Justicia. Así es la vida." La escritora Ana María Matute ha destacado "la poética

corrosiva" de Fidel Vilanova, que lo convierte en "un escritor de raza", lo que se confirma con La última mirada, novela que tiene la virtud de atrapar al lector desde las primeras líneas. Marbella, la corrupción social y política, la violencia y los crímenes pasionales, están en el trasfondo de esta historia llena de intriga y suspense. La culpa, la cobardía y la venganza son los pilares en los que se sustenta un texto escrito con un magnífico ritmo y una atmósfera envolvente, en el cual casi nada es lo que parece. When the launch of their powerful new hypersonic missile ends in destruction, the Chinese government needs someone to blame. Was it a failure of engineering, or sabotage? The chief engineer on the project, Dr. Yang Dàyóu, is targeted as the scapegoat and arrested—unable

Do you know how to say "shovel" in Albanian? "Lopata"! Even if you don't know how to say it in Albanian, be sure to throw one in the car when you go, or better yet take two and make sure they're really solid ones. Albania has changed dramatically since my first visit in 1999. The towns have been renovated and new main roads, new bridges as well as a new highway to the north have been built. You can catch a mobile phone signal almost everywhere and the stores are full of goods. Only the mountains have remained the same - or

maybe they have become even more desolate as time goes by. Young people are moving to the towns, mountain villages are depopulating and no one maintains the mountain roads. Illegal lumberjacks use IFA trucks to haul wood and the condition of the roads is getting worse and worse. Deep ruts, which are impassable with a regular off-road vehicle, are common. Roads are often washed away by water or covered by landslides. Each year after winter, more and more mountain roads are impassable. But there are still many beautiful, passable routes that lead to the most beautiful places in the mountains. The viewpoints of magnificent mountain lakes and majestic rock formations take your breath away. I would like this guide to lead you through the most beautiful places in Albania, places that I have fallen in love with and that I like to visit again and again. Don't believe ugly stories that people in Central Europe tell to scare each other. Forget the legends about bloody vendettas and hold-ups. All the same, you

can never be too careful and you'll be wise to camp close to residential areas and greet and chat with the locals when you arrive. You might even bring them a small gift, like beer, a knife, an axe or cigarettes for adults and chocolate, coloured pencils, colouring books or English children's books for kids. Albanians are very hospitable; I have always been polite and respectful to them and they have been very kind in return. Every red-blooded motorcyclist dreams of making the Big Trip--this updated fifth edition shows them how. Choosing a bike, deciding on a destination, bike preparation, documentation and shipping, trans-continental route outlines across Africa, Asia and Latin America, and back-country riding in SW USA, NW Canada and Australia. Plus--first hand accounts of biking adventures worldwide. This book presents, in large-format images, Simon's unique virtually designed racing machines and tells the story of international racer Vic Cooper, who time-travels under the name 'Vic13' and

later 'Mean13' to the past and the future to compete in a wide variety of motor races. His attempts are supported by world famous constructor Masucci, who built amazing vehicles for Cooper between the years 1916 and 2582. In this first volume of The Timeless Racer, Cooper time-travels to the year 2027, where he competes in the world-famous--and legendarily dangerous-- 48 Hours of America endurance race. The book puts three vehicles in the spotlight, shown in incredibly photo-realistic images. Car enthusiasts, design fans, and fiction addicts will be awed by fantastic and futuristic race cars in drawings and hyper-real renderings up to 24 inches wide. The book includes special attention to the fine details that make alternate worlds believable: fictitious sponsors and conflicts, with characters described in spectacular detail through photographs and back stories. In this captivating series, Simon returns to create an imaginary but entirely possible reality of glamour, speed, and honor.
